2 OUR CHANGING PLANET

THE EARTH: A CHANGING PLANET

- Scientists believe the Earth is 4.6 billion years old. However, the **mountains, valleys, hills, rivers, deserts and forests** we see today are much younger than that. For example, Mount Everest is about 60 million years old and the Amazon rainforest is only 10 million years old. The youngest sea in the world is the Baltic Sea, at about 15,000 years old.
- However, these changes are not bad for everyone. Because the Arctic is getting warmer, some people in Greenland now own businesses and sell vegetables they grow on their land. That wasn't possible so far north 50 years ago. Farmers in Greenland like the warm weather and hope it will continue.
- It's normal for our planet to change, but at the moment, scientists think it's changing faster than usual. They don't understand everything that's happening. But they know that some deserts (places where it doesn't rain much) are growing, and many forests are getting smaller. The weather is getting wetter in some places and drier in others, and there are more big storms.
- mountains and make **lakes** and deep **valleys**. Eighty or more volcanoes are under the oceans and sometimes they become new islands. This is happening in the South Pacific, near Tonga.

OUR CHANGING PLANET 15

READING

- Look at questions 1-4. In pairs, discuss the questions. Then, read the texts quickly to check your answers.

- How many languages are there in the world?
- What European language family does Polish belong to?
- Which Asian language has the most speakers?
- What are some common second languages in Africa?

LANGUAGES of the WORLD

There are around 7,000 different languages in the world today. Languages that are similar to each other are in groups or 'families'. Some languages have a lot of speakers and others have very few. Many of the smaller languages have no writing, so when the last speaker dies, the language dies too.

Europe

Europe has 284 different languages. One language family here is Romance languages, which includes Spanish, Portuguese and Italian. Another is Slavic languages, such as Ukrainian, Polish and Czech.

English belongs to the Germanic group, and is the third largest language in the world. 335 million people speak it as a first language and 500 million speak it as a second language. The Basque language from Spain and France is very unusual. It doesn't belong to any language family!

Americas

This area has 1,060 languages. English and Spanish have the most speakers on these continents. Spanish, with 400 million speakers, is the world's second-largest language. Portuguese is spoken in Brazil. While in Canada people speak mainly English and French. There are also many other native languages. For example, Mayan, a Mayan language, which people speak in parts of Mexico and Guatemala.

Asia

Asia has 2,303 languages. Chinese has a billion speakers - more than any other language in the world. Hindi is the world's fourth largest language, and Arabic comes fifth. Some parts of Asia have a very large number of languages.

Australia and Oceania

This area has 1,311 languages in total. The main language of Australia and New Zealand is English, but there are a lot of smaller languages too. Papua New Guinea has only around 8 million people, but it has 832 languages - more than any other country! Unfortunately, some Aboriginal languages are very small now and have only one or two speakers.

Africa

Human language probably began on this continent. There are 2,146 languages here. Many people in Africa can speak more than one language because, as well as their own language, they also speak English, French or Portuguese.

TALKING POINTS

- Watch the video and discuss the questions.
What languages do you speak? What languages are you studying? What languages do your parents speak?

Hotel Samul

- Ask and answer with a partner.
 - Where do you come from?
 - What languages do people in Ukraine speak?

VOCABULARY Large numbers

- Match the numbers to the words. Find all the big numbers in the text and write them in words. Then listen and check. In pairs, practise saying the numbers.

PRONUNCIATION Word stress in numbers

- Listen to the numbers and find the stressed syllable. Can you make a rule about the stress in numbers? Work in pairs. Practise saying the numbers.

- Work in pairs. Student A, say a number from the text. Student B, close your book. Can you remember what the number refers to?

LISTENING

- You will hear a man giving some information about different languages. In pairs, discuss the possible answers. Listen and check.

- How many colour words are there in Greek?
- How many in English?
- How many number words does the Pirahã language of Brazil have?

WRITING

PREPARE TO WRITE Information about your English class

• after a full stop
• for people's names
• for languages
• for countries

PLAN Plan a paragraph about your English class. Make notes about: people's nationalities; languages people speak; languages people in the class are learning; your likes, dislikes, plans about learning English.

My name is Maria and I come from Spain. Most of the people in my English class are from Spain too, but one of my classmates is from China and two are from Ecuador. The languages people speak in my class are Spanish, Catalan, Chinese and English. I like speaking in English, but I find listening difficult. I plan to spend more time learning vocabulary in the future.

WRITE Write 50-70 words, using all your notes. IMPROVE In pairs, read each other's paragraphs. Check that you have both included all the information you need and have used capital letters correctly.

 - to make a room more attractive for a party
- Think of an example where you worked with other people to get ideas and tell the class.
- Read the text and match groups A-D to the brainstorm techniques 1-4.

LIFE SKILLS

Brainstorming is a way to think of different ideas in a group or individually to solve a problem, to create something, to plan something. If more people take part, then there are more ideas.

- to do homework
- to buy a present for a friend

Last time, we had a science project. We had to think of an experiment to do in groups.

How and what can we brainstorm?

1 Mind map

location restaurants buildings — The best city — monuments shops

2 Lists

School trip to the mountains
Food: sandwiches, biscuits, juice, water, warm sweaters, boots
Clothes: hats, gloves, scarves, boots
Equipment: backpack, whistle

3 Cards

Name for our school pet
Max, Archie, Leo, Fluffy, Tilly, Jack, Tucker

4 Image circles

Image circles: palm trees, TV, shells, hamburgers, console

Group C 5 What did the students write in the middle circle?
Group D 7 What did the students write in the circles?
Group E 8 What did they do with ideas that were the same?

Group A. We chose one person in our group to be the secretary, who wrote down the ideas. We put the ideas in lists in different columns. When we had lots of ideas, we numbered them in order of importance. Then, we crossed out the ideas we didn't like so much. In the end, we planned a fantastic event.

Group B. In my group, we drew lots and lots of circles on the page. Then, we took turns to put an idea in each circle. We didn't write sentences. Instead, we wrote one or two words which expressed our idea. Although some people drew a picture. Some of the ideas were crazy, but it was fun to see things that other people thought were important.

Group C. We decided to draw a circle in the middle of the page and write the topic in the centre. Then, we drew lines which connected the middle circle to the other circles. Each of the circles contained ideas about a different part of the topic. It was good because everyone knew different pieces of information, like names or places, so when we finished, we had a lot to write about.

Group D. Each person in the class wrote one idea on a card. Then, we put all the cards on the floor at the back of the room. We put the cards that had the same ideas together in groups on the board and then we voted to decide on the best one.

5. In pairs, discuss which brainstorming idea you think is best and explain why.
6. Listen to four students planning a school party. Which brainstorming method do they use?

7. Listen again and answer the questions.

1. What are the topics they mention first?
2. List two of the themes the students suggest.
3. Which nationalities do they mention?
4. How many topics do they have at the end?
5. What is the name of the final topic they mention?

8. Choose the correct options. Listen again and check.

1. Do we / Shall we all write down a list of suggestions first / last?

 2. What ball games do you know? What are the rules of these games?
2. What can you see in the photos? Read the text and check your ideas. Match the photos A-D to the paragraphs 1-4.

A NEW SPORT?

1. Floorball is a new sport similar to hockey and is played indoors with a plastic ball and special sticks. Floorball is most popular in Sweden and Finland, but it is becoming more popular in places like Ukraine, the USA, and Canada. It is a fast team game, aiming to score more goals than the opposing team within the time limit. The players must use their feet to pass the ball to the opposite team's goal. The team with the most goals is the winner.

2. Floorball is a sport that was created in the 1970s in Sweden. It began when some students wanted to play hockey indoors, using a plastic ball instead of a puck. They made their own rules which eventually became floorball. The sport soon became popular around the world, and it continues to grow as more people discover its unique combination of speed, skills, and team play.

3. Having the right equipment is important for a safe and enjoyable game. To play floorball, you need a floorball stick and a ball. Goalkeepers need a floorball helmet, a chest and leg pads, and gloves. The floorball stick is light and flexible, usually about a metre long. The ball is also plastic and is a little smaller than a hockey puck.

4. Floorball is a game that anyone can play. It is a sport that does not involve physical contact, so people of all ages, sizes and genders can take part. This game can be inclusive and adapted for people of all abilities. Floorball is a great way to stay active, have fun, and make friends. With its growing popularity, floorball might soon become an Olympic sport.

3. Read the text again and answer the questions.

1. What is the aim of a floorball game?
2. What was floorball created?
3. What do you need to play floorball?

1. inside a building
2. a hard hat that protects a head
3. a group of people who play together

THE EARTH: A CHANGING PLANET

- 1 Scientists believe the Earth is 4.6 billion years old. However, the **mountains**, valleys, **hills**, **rivers**, **deserts** and **forests** we see today are much younger than that. For example, Mount Everest is about 60 million years old and the Amazon rainforest is only 10 million years old. The youngest **sea** in the world is the Baltic Sea, at about 15,000 years old.
- 2 The Earth is always changing because of **volcanoes**, earthquakes and, of course, wind and rain. Some of these changes are very slow and others are quick. Water and ice can make very big changes to the planet. For example, glaciers (rivers of ice) can cut through

mountains and make **lakes** and deep **valleys**. Eighty or more volcanoes are under the oceans and sometimes they become new islands. This is happening in the South Pacific, near Tonga.

- 3 It's normal for our planet to change, but at the moment, scientists think it's changing faster than usual. They don't understand everything that's happening, but they know that some deserts (places where it doesn't rain much) are growing, and many forests are getting smaller. The weather is getting wetter in some places and drier in others, and there are more big storms.
- 4 However, these changes are not bad for everyone. Because the Arctic is getting warmer, some people in Greenland now own businesses and sell vegetables they grow on their land. That wasn't possible so far north 50 years ago. Farmers in Greenland like the warm weather and hope it will continue.

Learning about the

GIANT PANDA

13

When I planned my trip to China, one of things I really wanted to do was to work at the Dujiangyan Panda Base in Chengdu. I spent seven days there, looking after the pandas, giving them food and cleaning their enclosures.

While I was there, I learned a lot about pandas. Wild pandas live in bamboo forests, high in the mountains of central China. In the past, they also lived in other parts of China and in Myanmar and Vietnam, but they don't any more. They spend about 12 hours a day eating bamboo, but they sometimes eat other plants or small animals. At Dujiangyan, we also gave them fruit, like apples, and special panda cakes made of rice, eggs and flour and other things.

Adult giant pandas weigh between 75 and 135 kilograms. Females usually only have one baby panda, or cub, at a time. The cubs only weigh about

85 grams when they are born! The little cub drinks milk for about four months and then begins to eat bamboo. Young pandas stay with their mothers for around 18 months.

Scientists think there are now between 1,500 and 2,000 pandas in the wild. This is a low number, but it's double what it was in the 1970s. The reason the number is going up is because of all the work scientists are doing at places like the Dujiangyan Panda Base in Chengdu. There are also about 325 pandas in zoos in a number of different countries, including the United States, Mexico, Japan and Germany.

FIRST HOLIDAYS WITH FRIENDS

19

Most of us can't wait to go on holiday without our parents. We can choose where to go, what to do and who to go with. But are first holidays with friends always great? Read about Sophie, Fred and Chris. Where did they go? Did they have a good time?

Last summer, after we finished our exams, I invited my friend Paula to go on holiday to Greece with me. We got a flight to Athens and then we went by ship to the island of Milos. We were really tired when we got there, but we both wanted a swim, so we went to the beach. You can guess! We lay down and closed our eyes and when we woke up TWO hours later, we were really hot and thirsty – and red! Never again! **Sophie, 16**

My first holiday was a weekend in London. Jim, Simon and I travelled by tram from my house to the bus station. When we arrived there, I put my hand in my pocket but my wallet wasn't there! Where was it? I think I lost it on the tram. Jim and Simon each lent me money for the coach. We stayed at Jim's aunt's house in London and we had a fantastic weekend. **Fred, 13**

My first holiday was with my friend Tom at a campsite in a forest near our town. We didn't want my parents to drive us there, so we went by bus and then on foot. It was a long walk to the forest and it was raining! I put the tent up quickly because I knew how to do it, but all our things were wet. Then the sun came out the next day. We dried everything and had a great time! **Chris, 12**

TEEN TRAVEL TIPS ▶ UZHGOROD

ALICIA (12), GREECE

Last May, I spent my holiday at my grandparents' house in Ukraine. They live in a town near Uzhhorod, so I decided to visit this city. It was great, because I got to see the Sakura Festival! Sakura Alley was crowded because there were a lot of people taking photos of the trees. It was fantastic to see the blooming trees and watch their pink petals falling like snow. I also enjoyed trying the local dishes, but the most fun activity was to find mini sculptures around the city. I would definitely recommend visiting Uzhhorod to others.

SHIVEN (11), INDIA

My family and I are travelling around Ukraine by car this month. We want to see different historical sites. Last week, we visited Uzhhorod Castle as a part of our journey. I usually prefer sightseeing on foot because in India I always travel by scooter. We explored the city, took lots of photos and enjoyed the views. The castle, with its old towers, courtyards and walls, impressed me a lot. The local people are very friendly and helpful, so don't hesitate to ask them for tips on the best places to go and things to do.

PAOLO (13), ITALY

Last August, we booked a hotel not far from the pedestrian bridge. It was a quiet place, so we went sightseeing along the river. I was really fascinated when I found a mini sculpture next to the bridge. At the weekend, we cycled through the streets as we prefer riding bikes instead of walking. The city was not as crowded as we expected. The only problem was the language, so my advice is to learn a bit of Ukrainian before you go.

3 Read the article about Paula and Gary's homes and look at the photos. Which photo, A or B, shows where Paula and Gary live now?

A New HOME

Paula and Gary lived in a modern house. It had a living room and a kitchen on the ground floor and on the first floor two bedrooms, one with a balcony and a bathroom. Next to the house they had a garage for their car, and they even had a small garden with a little gate painted green. It sounds perfect!

But Paula and Gary weren't happy. They both wanted to live somewhere more interesting, so they started to look for a new home. They were looking at homes on the internet one day, when Tim, Gary's dad, had an idea. Tim had his own lorry business and he was selling one of his lorries. Why didn't Paula and Gary buy it and make it into their new home? Gary and Paula thought this was a brilliant idea and bought it that same day.

It was a busy year: Gary was building everything for their new home, while Paula was working. He built cupboards around the cooker and the sink and he even built the shower. They bought a small sofa because there wasn't enough space for a big one.

Finally, six months ago, Gary finished the work on the lorry and they moved in. Gary and Paula love their new home! Paula thinks the best thing is the entrance made of wood and glass and Gary loves the high ceiling because he's tall.

There's no place like home!

4 Read the text again. Answer the questions.

READING

- 1 Look at the photos of the unusual homes. What do you think they are like inside?
- 2 Read the article and match the photos A–D to paragraphs 1–4.

STRANGE HOUSES

Most of us live in an apartment or in a house. Our homes often look similar to our neighbours' from the outside, but on the inside they can be very different. Most of us like our homes to be cosy and comfortable, but we have very different ideas about what that means. Some people like to have bright colours and lots of furniture, others prefer a cool, modern-looking home. However, some houses look very unusual from the outside. Have a look at these four photos.

1 Do you like flying? Then, this attractive house is for you. It's in Lebanon and is the shape of a plane. It's got small windows, so it's not very light inside, but in a warm country, small windows keep a house cool in summer.

2 This very unusual house is in Mexico. It looks like part of the rock – and it is! The walls and the roof of the house are part of a very big rock. The family made the house more than 30 years ago. We can't see inside, but it looks quite dark, cool and peaceful.

3 In 1968, a group of swimmers first had the idea to build this tiny house on a rock in the middle of the River Drina in Serbia. It's not only small but, as you can see, it's also not easy to get there. In winter it can be quite cold, so people use it mostly in the summer.

4 A Japanese company designed this football-shaped house in 2006. It's got 32 sides and four legs and can sit on top of water. It's very small but has big windows, so there is lots of light. What a great place to live!

3 Read the article again and answer the questions.

- 1 What does the house in Lebanon look like?
- 2 What is the Mexican house made of?
- 3 What can you find in the middle of the River Drina?
- 4 When do most people use the house? Why?
- 5 What does the Japanese house look like?
- 6 Why is it very bright inside?

PREPARE TO WRITE A description of a home

GET READY Read Fernanda's description of her home. Which city does she live in? How many rooms does her family's apartment have? We use pronouns instead of nouns, so we don't have to repeat nouns. Which nouns do the underlined pronouns in her description replace? Now replace the underlined nouns in this paragraph with pronouns.

David lives with his family in a small house in York. The house is new and the house has two bedrooms. David shares his bedroom with his sister, Mia. Mia is two. David's mum, Helen, is a doctor and his dad, Ron, is a nurse. Helen and Ron both work at the hospital.

Hi, I'm Fernanda. I live with my family in an apartment in São Paulo, Brazil. It's on the ninth floor of a big block near the city centre. It's got a kitchen, a living room, a bathroom and two bedrooms. I share one of the bedrooms with my sister, Luiza. She's 15. I'd like my own bedroom, but it's OK sharing with Luiza. We like the same things and we enjoy talking at night.

PLAN Think about your home. Where is it? What kind of home is it? Who lives there? How many rooms has it got? Do you have your own room, or do you share a bedroom? Make notes.

WRITE Write a description of your home. Use pronouns for some of the nouns.

3 Do students have any homework?

4 Do subject words appear on all school timetables?

6 In Finland, do students

a complete a project at the same time as they learn school subjects, or

b study school subjects and then complete a project?

36

In international tests of maths, science and reading, students in Finland do well. This is good news! But when you look more carefully at the schools, it's not easy to explain. Finnish students don't start school until they are seven years old. The school day is short, about five hours, and there are only three or four classes a day. Students don't have much homework and there are no exams. So, why don't they do badly in tests? Perhaps something else can explain it.

There is another unusual feature of schools in Finland. For most of us, the school timetable is a list of subjects, for example ICT, history, foreign languages, geography, with one lesson following another. But some experts believe our brains work in a different way. They say our brains don't divide our learning into subjects. Our brains learn better when they get new information in context. This is why some Finnish schools don't teach subjects separately. Instead, they give students a project, such as 'the weather', and then bring school subjects into the project.

So how do some experts believe we learn most easily? Here's an example of a project with a class of 12-year-olds. Students watch a video re-enactment of the end of the city of Pompeii. Then on their laptops they compare ancient Italy under the Romans with modern Finland. Groups look at different parts of the topic and then share their ideas. They also use 3D printers to make a tiny Roman building. Later, they use the pieces of the building for a game. This project includes history, ICT, and design and technology.

4 In pairs, ask and answer the questions.

- 1 Which are your favourite subjects?
- 2 Which subjects don't you enjoy as much?
- 3 Which subjects are you best at?

31 July 2018

A few years ago, I wasn't very happy at school and I wasn't doing well in tests. So, when I was eight, Mum and Dad decided to teach me at home.

Homeschooling – great, I thought! I could stay in bed all day! Well, it wasn't quite like that! My parents found out what I needed to learn. Sometimes I had lessons, but most of the time I studied things I liked and found interesting. That's how homeschooling works best.

My favourite hobby was playing computer games, so, with Dad's help, I began to write my own computer programs. But I liked making models too, and for that I needed ... maths! At school, maths was boring, but now it was useful for making my models. I made a model boat and I needed to

understand science and maths to do that – oh, and design and technology too!

So were there any bad things about homeschooling? Not really. I missed my friends, but I saw them at weekends and we talked about school! They told me about their week at school, and I told them about mine. Mine always seemed more fun to me. Some weeks I studied more than they did. Other weeks I didn't study much at all. And I never had homework! I'm 15 now, and I'm back at school because I need to take exams. I don't mind. It's nice to study with my friends again.

- 2 Read Clarissa's blog again. For each question, choose the correct answer.

 - B She chose what she wanted to learn.
 - C She studied in bed a lot of the time.
- 3 She preferred doing maths at home because
 - A her dad was able to explain it to her.
 - B it helped her do things she enjoyed.
 - C she had more time to spend on it.
- 4 What was the difference between Clarissa's and her friends' school experiences?
 - A Clarissa didn't have to do any homework.
 - B She had more work to do than they did.
 - C Her friends enjoyed themselves more.
- 5 What does she say about homeschooling?
 - A It's important to have daily lessons.
 - B It's hard to find time to see friends.
 - C Learning doesn't always have to come from books.

Special Memories

ANJA, AGE 13

My special memory is from when I was three years old. We were staying with my grandparents at their house in the country. They lived in an old wooden house. I remember the house was always cold and it was near a forest. When it was time for bed, Grandma took me upstairs to read me a story. On my bed there was a lovely wool blanket. It was really colourful. I remember touching it and it was so, so soft. 'It's yours. I made it for you,' my grandma said. I still have the blanket on my bed at home. It looks really small there, but I remember when I was younger it seemed so big!

PETE, AGE 14

My special memory isn't from very long ago. I was opening presents on my 13th birthday. My older brother gave me a large box. It was very hard. What could it be? I opened it and felt inside. I'm blind, so I needed to touch everything because I can't see. It was smooth and round. I remember thinking 'It's a leather football' and feeling upset. I can't play football because I can't see the ball. I picked it up. It felt quite heavy, and it made a noise. My brother told me it was a special football for blind people. There are little metal balls inside that make a noise when someone kicks or throws it. Perfect! Now I play football all the time.

SECONDARY SCHOOL IN THE UK AND UKRAINE

1 Discuss the questions with your partner.

- 1 Do you like going to school? Why? / Why not?
- 2 At what age do people start secondary school in Ukraine?

2 Work with a partner. Read the title and the subtitles. Make predictions about the UK school system. Read the web page. Were any of your ideas mentioned?

The secondary school system in the UK

48

From the age of 11 to 16, children go to secondary school. Most take children of all abilities and are called comprehensive schools. But there are also grammar schools, where children take an exam to enter, especially in Northern Ireland. In Scotland, secondary schools are called high schools or academies. When they are 14, all children choose the subjects they want to study at GCSE (or National 5 exams in Scotland). These are national exams you take at 16. Everyone has to do English and maths. Students also choose four or more additional subjects from a list. This includes subjects like languages and sciences but also photography and drama.

The school year

The school year goes from September to July in England and Wales, August to June in Scotland

and September to June in Northern Ireland. There are three terms and short holidays in the middle of each term. The Christmas and Easter holidays are usually two weeks, and the summer holiday is six weeks, or two months in Northern Ireland.

The school day

The school day at secondary schools goes from about 8.45 a.m. to 3.30 p.m. There's a break in the morning and another for lunch. Most British school students have to wear a uniform. Each school has its own colours for the uniforms.

Sixth form / S5 and S6

When students are 17 and 18, they take more exams. In Scotland, these exams are called Highers in the first year and Advanced Highers in the second year. In the rest of the UK, students go into the sixth form to study four subjects at AS level in their first year and three of these at A level in the second year. You need to pass these high-level exams to go to university.

So he decided to build the biggest time capsule in the world. He put more than 5,000 real objects inside, including clothes and even a new car and buried it on 4th July 1975 in front of his shop. Then he heard there was another time capsule bigger than his, so he put a second time capsule on top of the first one. His grandchildren will open them both on 4th July 2025. LIFE SKILLS COMMUNICATION

HAVING A GOOD CONVERSATION

Good

conversations

LIFE SKILLS

To have a good conversation, you should remember that:

- when only one person talks and the other listens, it is not a conversation!
- some people are quiet, some people like talking more.
- a good conversation includes everyone.

Imagine you have to spend an hour with a student you don't know from another class. Maybe you're going to take a test, or you're waiting to see the head teacher. For some people, it's a difficult situation because you don't know the person very well. For other people, it's easy to start a conversation and say, for example, *How are you?* or *Are you nervous?*

Talking to an older person can be even more difficult. For example, your parents' friends or aunts, uncles or grandparents. Sometimes they ask all the questions and you only answer! The best way to manage this is to think of questions to ask the other person. People like to talk about their experiences and to give an opinion about things.

Group conversations are also difficult to manage sometimes, but there are some easy ways to make sure everyone speaks, including yourself! If you are a person who can talk easily, then think about the others in the group. If you notice one person is not speaking, then ask them a question. A simple *And you?* or *Why?* Or show interest – *Really?*

When you are in a group and everyone is talking at the same time, it is sometimes hard to interrupt, especially if you think this is not a polite thing to do. When you want to give your own opinion politely, you can use *Excuse me, can I say something?* Then other people know you have something to say.

We can all learn to have good conversations.

1 Are these statements true (T) or false (F) for you? In pairs, compare your ideas.

Playing a good video game is an exciting experience. Games are full of light, sound, action and surprises, and this makes them fun to watch as well as to play. Because of this, more and more people are taking part in eSports. This is the short name for electronic sports – playing video games against other people in competitions. There are huge tournaments all over the world, where big crowds watch matches on giant screens, and millions more watch online.

Just like many normal sports, eSports players usually play in teams, and have fans who follow them through every competition. Prizes for important eSports competitions are very large, and eSports champions can earn more than £1 million a year. That makes it sound like a great job, but in fact it's not easy to be a winner. Players have to practise for

up to 14 hours a day, so they don't get much rest. The games they play change often and there are always new things to learn.

eSports stars are not well known in the way that some football stars are. However, some top eSports players now work for real football teams. For example, Koen Weijland, a professional player of the football video game FIFA, is part of Ajax, a famous Dutch football team. As a little boy he wanted to be a footballer and was a big fan of Ajax, so for him this is like a dream come true. And who knows, maybe one day, eSports stars like him will be as famous as today's top footballers.

- 2** For each question, choose the correct answer.

- 1 What does the writer say in the first paragraph?
 - A eSports are more fun to watch than to play.
 - B eSports are becoming more popular.
 - C Most people don't understand eSports.
- 2 What is hard for top eSports players?
 - A They don't have a lot of free time.
 - B They don't make much money.
 - C They get bored of playing video games.
- 3 What is the writer doing in the third paragraph?
 - A explaining why eSports stars are not famous
 - B showing how eSports and sports come together
 - C describing the daily life of an eSports star

- 3** In small groups, ask and answer the questions.

- 1 Do you play video games? If yes, which ones?
- 2 Would you like to watch an eSports competition? Why / Why not?

- 4 What is the best title for this article?
 - A Are eSports a good thing?
 - B The history of eSports
 - C What are eSports?

WHAT MAKES A MOVIE A HIT?

91

We all know a good film when we see it. It has a great story, excellent photography and wonderful acting. But what makes a good movie into a big hit? This is a question that filmmakers are always asking themselves! Of course, there is no perfect answer. However, movie companies have a few tricks which help make their films become as successful as possible.

1

Some stars have fans who will go and see any movie they are in. Unfortunately, not all movies that have big stars in them are successful, and using famous actors can be expensive!

2

There are lots of movies which come from books, comics, computer games or TV shows. Just think of Harry Potter, Wonder Woman, X-Men, Star Wars, etc. People already love these, so they can't wait to see the film.

3

People often check to see what newspapers or websites are saying about a film before they go and see it. Also, people who love a movie will tell their friends how good it is.

4

This is really important. As well as posters and trailers, most big films will now have a website that gives extra information about the film. Also, when a new film comes out, the stars of the movie usually travel around the world and give interviews to get people interested in the film.

5

Awards like the Oscars and the Golden Globes let people know which films are good to watch. A movie that gets an award often becomes much more popular than before.

4 Read the blog again. Are the sentences right (✓) or wrong (X)?

- 1 Great acting is the most important aspect of a good film.
- 2 It costs film companies a lot of money to use famous actors.
- 3 People only use reviews in papers to decide which film to watch.
- 4 The job of a famous actor includes telling the public how good the film is.

5 In pairs, look at the points in Ex.3 again and discuss what is most important to you when choosing a film to see.

WRITING

PREPARE TO WRITE An invitation (cinema)

GET READY Read the invitation to the cinema in the email and answer the questions. Who is Jake inviting? What film does he want to see? When does he want to go?

Look at the prepositions. Which preposition do we use with: times? days? streets? if you are moving to a place?

PLAN Plan your own invitation to the cinema. What day are you going? Which film are you going to see? What's it about? What time does it start? Which cinema are you going to? How are you getting there?

Hi Leo,
Would you like to come to the cinema with me and a few friends on Saturday? We want to see **Ghostbusters**. It's about a group of women who try to find ghosts in New York. It sounds really good! It's on at Galaxy Cinema and it starts at 6.45 p.m. We're meeting at the bus stop on Friar Road at 6 p.m. Let me know if you can come!
Jake

BRAINSTORMING

1 When do you need ideas from other people?
Say the sentences that are true for you.
Then in pairs, compare your answers.

- to do projects at school
- to decide what to wear in the morning
- to make a room more attractive for a party

2 Think of an example where you worked with other people to get ideas and tell the class.

3 Read the text and match groups A-D to the brainstorm techniques 1-4.

LIFE SKILLS

Brainstorming is a way to think of different ideas in a group or individually: to solve a problem, to create something, to plan something.

If more people take part, then there are more ideas.

- to do homework
- to buy a present for a friend

Last term, we had a science project. We had to think of an experiment to do in groups.

How and what can

1 Mind map

2 Lists

School trip to the mountains

Food	Drink	Clothes	Equipment
sandwiches	water	warm	backpack
biscuits	juice	sweater	whistle

3 Cards

Max Archie Leo Fluffly
Tilly Jack Tucker

4 Image circles

4 Read the texts again and answer the questions.

Group A 1 Did all the students write ideas?
2 How did they organise their ideas?

Group B 3 What did the students write in the circles?

4 Did all the students write in the circles?

Group C 5 What did the students write in the middle circle?

6 Did they learn new information?

Group D 7 What did the students use to show ideas?

8 What did they do with ideas that were the same?

95

Group A. We chose one person in our group to be the secretary, who wrote down the ideas. We put the ideas in lists in different columns. When we had lots of ideas, we numbered them in order of importance. Then, we crossed out the ideas we didn't like so much. In the end, we planned a fantastic event!

Group B. In my group, we drew lots and lots of circles on the page. Then, we took turns to put an idea in each bubble or circle. We didn't write sentences. Instead, we wrote one or two words which expressed our idea, although some people drew a picture. Some of the ideas were crazy, but it was fun to see things that other people thought were important.

Group C. We decided to draw a circle in the middle of the page and write the topic in the centre. Then, we drew lines which connected the middle circle to the other circles. Each of the circles contained ideas about a different part of the topic. It was good because everyone knew different pieces of information, like names or places, so when we finished, we had a lot to write about.

Group D. Each person in the class wrote one idea on a card. Then, we put all the cards on the board at the back of the room. We put the cards that had the same ideas together in groups on the board and then we voted to decide on the best one.

5 In pairs, discuss which brainstorming idea you think is best and explain why.

96 **6** Listen to four students planning a school party. Which brainstorming method do they use?

96 **7** Listen again and answer the questions.

- 1 What are the topics they mention first?
- 2 List two of the themes the students suggest.
- 3 Which nationalities do they mention?
- 4 How many topics do they have at the end?
- 5 What is the name of the final topic they mention?

96 **8** Choose the correct options. Listen again and check.

POCKET MONEY

Did you know?

- Most teenagers receive pocket money every week. But not everyone gets the same amount of money. Have you asked your friends how much they get? You might be surprised. And if you're a girl you'll be amazed to learn that boys often get more than girls of the same age!
- Teenagers up to the age of about 15 in the UK have about £5 a week in pocket money. But in Italy, France and Spain, the same age group gets about €9, which is a bit more. In the US, pocket money is called 'an allowance'. Most teenagers get an allowance of about \$30, which is more than £20 or €25.
- Quite a lot of teenagers do. They have to do things in the house, like washing-up and cleaning and then they get their pocket money. If they don't do the jobs, they don't get the money. Some teenagers have part-time jobs too, which means they have more than their pocket money to spend each week.
- You might be surprised at the answer. Teenagers in the UK spend more of their money on food than on clothes. Is that true for you too? Teens do more shopping online than before and online clothes shopping is cheaper. So perhaps this is one reason they don't spend so much on clothes.
- Some parents do! They only let them buy some things. Other parents want their teens to save all their pocket money and spend it on something big in the future, or not spend it at all.

MY HOBBY – geocaching

Blog post written by Lucy Barton, aged 14

115

I started geocaching because of my uncle – he's done it for years. Geocaching is a treasure hunt that you do with an app. The 'treasure' is a box called a cache that someone else has hidden. There are 2 million of these, all over the world! It's a really fun hobby and I'm so glad my uncle told me about it. We have a great time doing it together, but if he's busy I go with friends, or do it by myself.

The app takes you quite close to the cache, and then it gives you a puzzle to help you find exactly the right place. A lot of older people are geocachers, so some of the puzzles are difficult for me as they are about movies and TV

shows that I haven't seen. But I don't really mind – I can always look them up on the internet!

It's a fantastic feeling when you find a cache! You have to open the box and put your name in the little book inside. Often, there are things in the cache as well. You can take something out to keep if you want to, but if you do that, you should always put something new inside for the next person.

Next year, I'm going to start using the paid version of the app. Then, I can make and hide my own caches! I'm also going to tell all my friends and family about geocaching. It's such a great way for everyone, from adults to little kids, to spend time together, enjoy themselves and get to know their local area.

- 2 Read the text again. For each question, choose the correct answer.

- What do we learn about Lucy from the first paragraph?
 - She has done her hobby for longer than her uncle.
 - She didn't enjoy her hobby much at the beginning.
 - She doesn't always do her hobby with other people.
- What must you do when you find a box?
 - check how many people have already found it
 - leave something of yours for the next person
 - write down who you are in the little book
- What does Lucy plan to do in the future?
 - spend more time geocaching in the city
 - get other people interested in geocaching
 - spend less money on going geocaching
- What do we find out about geocaching from this article?
 - It's becoming more popular every year.
 - It takes a long time to learn how to do it.
 - It's a good hobby for people of all ages.

- 1 How many languages are there in the world?
- 2 What European language family does Polish belong to?

- 3 Which Asian language has the most speakers?
- 4 What are some common second languages in Africa?

LANGUAGES *of the* WORLD

118

There are around 7,000 different languages in the world today. Languages that are similar to each other are in groups or 'families'. Some languages have a lot of speakers and others have very few. Many of the smaller languages have no writing, so when the last speaker dies, the language dies too.

Europe

Europe has 284 different languages. One language family here is Romance languages, which includes Spanish, Portuguese and Italian. Another is Slavic languages, such as Ukrainian, Polish and Czech.

English belongs to the Germanic group, and is the third largest language in the world: 335 million people speak it as a first language and 505 million speak it as a second language. The Basque language from Spain and France is very unusual. It doesn't belong to any language family!

Americas

This area has 1,060 languages. English and Spanish have the most speakers on these continents. Spanish, with 406 million speakers, is the world's second-largest language. Portuguese is spoken in Brazil. While in Canada people speak mainly English and French. There are also many other native languages, for example Mam, a Mayan language, which people speak in parts of Mexico and Guatemala.

Asia

Asia has 2,303 languages. Chinese has a billion speakers – more than any other language in the world. Hindi is the world's fourth largest language, and Arabic comes fifth. Some parts of Asia have a very large number of languages.

Australia and Oceania

This area has 1,311 languages in total. The main language of Australia and New Zealand is English, but there are a lot of smaller languages too. Papua New Guinea has only around 8 million people, but it has 832 languages – more than any other country! Unfortunately, some Aboriginal languages are very small now and have only one or two speakers.

Africa

Human language probably began on this continent. There are 2,146 languages here. Many people in Africa can speak more than one language because, as well as their own language, they also speak English, French or Portuguese.

TALKING POINTS

WRITING

PREPARE TO WRITE Information about your English class

GET READY Read what a Spanish student wrote about her English class. Look at how she uses capital letters. Find examples of these uses:

- after a full stop
- for nationalities
- for people's names
- for languages
- for countries
- for 'I'

PLAN Plan a paragraph about your English class. Make notes about: people's nationalities; languages people speak; languages people in the class are learning; your likes, dislikes, plans about learning English.

My name is María and I come from Spain. Most of the people in my English class are from Spain too, but one of my classmates is from China and two are from Ecuador. The languages people speak in my class are Spanish, Catalan, Chinese and English. I like speaking in English, but I find listening difficult. I plan to spend more time learning vocabulary in the future.

WRITE Write 50–70 words, using all your notes.

IMPROVE In pairs, read each other's paragraphs. Check that you have both included all the information you need and have used capital letters correctly.

LIFE SKILLS

LEARNING TO LEARN

EFFECTIVE LEARNING

LIFE SKILLS

To learn something well, you need to

- use a notebook
- revise
- practise
- try

It's normal to make mistakes when we are doing something new. But we can learn from our mistakes as well.

What was the **first word** you said?

Have you ever thought about how babies learn to speak? For the first months of their lives, they cry and make noises, but, in general, children start **forming** words when they are about 12 months old. Which are the first words they say? Sometimes, they are the words they hear most often, sometimes the words for things they like. They usually start with words like mama, papa or dada. Some scientists say that sounds like ma, da, pa and ba are the easiest sounds to make, so when parents are very happy because their child is saying mama, in fact the baby is just **experimenting** with making noises!

All children begin learning their language first by listening and then speaking. They start with words for objects, like *car* or *dog*, then verbs for actions, like *drink* or *eat*, slowly **adding** other kinds of words to make sentences. They can understand more difficult words and sentences, but they can't say them. Some children speak more than others (just like adults!) and some children speak earlier than others, but by **practising**, they all learn in the end.

One mother tells the story of her son who didn't speak until he was four years old. Before then, he pointed when he wanted something or just made strange noises. One day, he came into the kitchen for breakfast and said, 'Can I have some chocolate cereal, please?' And then, he never stopped **chatting**.

So when you start to learn another language, remember that it took years for you to learn yours! If you keep listening and **trying hard** to speak, you improve, just like in your own language.

1 Answer the questions.

- 1 How did you learn that $2 \times 2 = 4$, $2 \times 3 = 6$, $2 \times 4 = 8$, etc.?
- 2 How did you learn to ride a bicycle?
- 3 How do you learn to remember names and dates in history?

2 Match questions 1–3 in Ex. 1 to answers a–c. Then match them to one of the ideas in the *Life skills* box.

- a At first, I couldn't do it, but my brother helped me to go along our street every day until one day I could do it by myself.
- b We said it in class and repeated it lots and lots of times.
- c I work with a friend. We ask each other questions about the things we learn.

3 Did you learn to do these things in the same way? In pairs, discuss how you learn.

- | | |
|------------|-------------|
| a reading | b listening |

ACCIDENT!

Posted by Ben09 on Monday 13th May

127

This is me with my new bike – before the accident! Have you ever fallen off your bike and hurt yourself? Well, here's my story.

It was my birthday (thanks for all the texts) and this amazing bike was my present. I went for a ride by myself along the bike path. The path isn't usually busy. But that day there were two cyclists coming towards me. I slowed down as quickly as possible but I forgot it was a new bike with good brakes! I

stopped really suddenly and fell off. I hit my ankle and it really hurt. The two cyclists rode past and didn't stop. I sat on the ground and watched their backs as they rode away. They were enjoying themselves too much to think about me! I got up by myself and picked up my bike, which luckily was OK. My heart was beating fast as I cycled slowly home and people were looking at me! When I got there I found out why – there was blood all over my T-shirt from a cut on my ear.

Teen Health

128

Today's topics

- How much exercise should I do?
- Are some foods healthier than others?

- Can it be dangerous to listen to loud music?
- Is it OK to feel sad sometimes?

1 _____

Yes! But how do you know when it's too loud? Can someone sitting next to you on the train hear the music on your earphones? They can? Do they get upset? Do they get angry? Well, then you need to make it quieter. Remember, you need to look after your ears, so you'll be able to hear well when you're older.

2 _____

Everyone tells you it's not healthy to sit at the computer all day. For one thing, it's very lonely and can make you feel lazy. But doing too much sport can also be bad for you. Your body is still young, so you shouldn't do too much exercise. You can easily hurt something. About an hour of sport a day is right for a teenager. You should also think about when you do sport. For example, you can get a stomach ache if you play tennis just after you've eaten.

3 _____

Everyone feels unhappy from time to time, so you're not alone. Don't be surprised. It's normal for your feelings to change at your age. Is there something you're worried about? Find a friendly person to talk to, like your mum or dad or a teacher. You might get a bit embarrassed, but you'll be glad that you did. If you talk about your problems, they aren't so bad.

4 _____

The answer to this is yes! I'm sure you know that a plate of fruit is better for you than a plate of chips! But what your growing body, your heart and your brain need is variety. If you are careful and eat a bit of everything, then you are healthier. Don't forget fresh fruit, vegetables and eggs! Eating a variety of healthy food gives you energy and can help you feel confident about studying and doing exams.

BOOKS TO MAKE YOU laugh this summer

We asked three readers to tell us about a funny book they enjoyed – here's what they told us.

A NATALIE

My mum bought this for me for my birthday and I knew from the picture on the front and the title that I was going to love it. I read it in just two days and I was really sad when I got to the end. The story is about a girl who has to help her family by getting back some stolen paintings – I found it really exciting! I'm now a huge fan of the author, Ally Carter – I have all her other books on my shelf ready for the summer.

B HEIDI

In my opinion, this is one of the funniest books ever written for teenagers. It's about a 15-year-old boy who wants to start a rock band, but the adults in his life all try to stop him. Nothing goes right for him until the very end of the story. The writer is also an artist and the clever drawings on each page help the story along. Unfortunately, the cover makes it look like it's for little kids, which is a shame as it might stop some teenagers from picking it up.

C DAVINA

I got this book for a great price in my local store. It's a funny story about a terrible girl who has to learn to be a better person. It's the first time I've tried this kind of book, but I really enjoyed it. Of course, it's not perfect – I wasn't happy with what happens in the last few pages. But it was a lot of fun, and I think I'll probably read more like it in the future.

Breakfast cereals

 137

Breakfast cereals are popular in many countries. They are made from grains, such as corn, wheat and rice. They are usually eaten with milk, or with yogurt and fruit. In the beginning, cereals were health foods, but these days some children's cereals are 50% sugar, and doctors say we shouldn't eat them too often.

There are lots of kinds of cereal. This is how cereals in different shapes, like stars and balls, are made.

- First, the grain is taken to the factory, where it is cleaned and checked.
- Then it is **prepared** for cooking. It is made into flour and **mixed** with other ingredients. Water is **added** and the mixture is **boiled**.
- When it is soft, it is put into special machines which make it into shapes like stars, circles, or even letters of the alphabet.
- The shapes are **baked** in an oven to dry them. Then, they are 'puffed' in another machine to make them light and full of air.
- After that, they are **covered** with sugar or honey. Some are **filled** with chocolate. The cereal pieces are then **dried** in hot air.
- Finally, the cereal is packed into boxes, ready for the shops.

LIFE CHANGES

143

Hi, my name's Joe and I'm 15. I want to tell you about something which changed my life. My mum always sang me songs at bedtime when I was a little boy. The songs weren't written by other people. They were all her own work. Anyway, Mum changed her job and it meant we had to move from London to New York. I was very excited but sad to leave my friends. When we were changing planes in Dublin my mum started talking to a man who worked for a record company. She told him about her songs, and he asked her to send him some of them. When we got to New York, Mum sent him some songs, and he loved them. A year later, her first album was

released and it sold a million copies in a week! She recorded another and soon she was rich.

Our old apartment wasn't very comfortable and because mum had lots of money we moved to a really big apartment with a great view of Central Park. Then, our lives really changed. Suddenly, everything was done for us, our food was cooked by someone else, our apartment was cleaned, I was driven to school, Mum and I were flown everywhere in a private plane. I know it sounds amazing and it is, but actually I'd like to go back to my old life in London.

Learning Styles

Learning styles are the different ways a person understands information. The three main types of learning styles are visual, auditory, and kinaesthetic. Some individuals learn better by seeing information, while others understand more by hearing instructions. There are also people who learn best by doing or interacting with things.

It's also very common for people to have a mix of learning styles.

- If you are a visual learner, you should use visual aids, like pictures and diagrams. You can also highlight key points in texts to help you remember them. If you have an important test, you should create a visual map to help you recall information.

- As an auditory learner, you should try to record lectures and listen to them multiple times. You must also read information out loud to help you remember it. You may study in groups with your friends. Try to have discussions with them.
- Kinaesthetic learners should actively use physical objects. You can do different experiments or role-playing. Try to create physical models or diagrams to help you understand the material.

To sum up, it's important to figure out which way of learning works best for you and use it. With effort and some practice, every student can do well in school.

Reading Multiple-choice three short texts (Unit 3, Unit 12, Unit 18)

THREE UNUSUAL HOMES

UNDERSTANDING THE TASK

There are three short texts to read. They might be about people, places, books, films, etc.

What do I have to do?

There are six questions to answer. Match each question to one of the texts.

TIPS FOR SUCCESS

- Find the key words in the questions.
- Read the texts and find the information which matches the question exactly. The meaning will be the same, but the words will be different.
- Don't worry if you don't understand every word in the text.

1 Look at the title of the article and read the questions. Then, read the article and find the answer to question 1. Find the part of the text that gives you the answer.

2 Now you try. Complete the task. Use the *Tips for Success* to help you. For each question, say Sarah, Andrea or Alex.

- 1 Who knows other people who live in homes like hers?
- 2 Who says that she feels safe in her home?
- 3 Who is happy with the size of her home?
- 4 Who says that guests enjoy spending the night in her home?
- 5 Who needs a lift when she wants to visit friends?
- 6 Who lives in the centre of the city?

Sarah

My home is a houseboat on a river. My parents and I have lived here

since I was four, and I can't remember living anywhere else. Lots of my friends live on houseboats too, so it feels normal to me. We haven't got much space, but we don't mind – it's enough for us. Visitors love staying here and are surprised by how comfortable it is. They always sleep really well and love being on the water.

Andrea

My friends at school think my lighthouse home is very cool. I like it, but it's not easy living here. The rooms are round, so it's hard to fit furniture in, and they're not very big. Also, my

parents have to drive me everywhere as we are so far from town. The sea is only about 10 metres away, so it gets very exciting when there is a storm. But the building is very strong, and I never feel afraid.

Alex

My name is Alex. I'm from Chernivtsi. I live in an unusual Ship-House, which has been a part of my city since the 19th century. It's situated in the middle of Chernivtsi, and it's always been a wonder to the locals and tourists. I love living here as it's always fun to explain to people what kind of building it is. As the Ship-House is located in the city centre, I can easily get to my school, shops, and other places.

Luke Thill

When he was 12, Luke Thill was at home during the school holidays. He was bored and looking for a fun activity, but he didn't want to play computer games or ride his bike. Then, he heard about people who build, and live in, very small wooden houses. 'I decided that I wanted to build one in my garden,' he said. 'I thought if I made enough money doing jobs for my neighbours, it might be possible.'

Luke's dad agreed to help, but he had a few rules. Luke had to pay for everything himself and had to do most of the work. Luke describes his dad as his

'coach' and says that working as a team brought them closer together. It took them a year and a half to finish the house and it cost \$1,500.

The house is three metres long and two metres wide. Downstairs, it has a kitchen and sitting area with a TV, and upstairs there's a little bedroom. When he began, Luke was already quite good at repairing things, but there was a lot he didn't know. 'It all seems very simple to me now,' he said. 'But at the time, I had no idea what to do.'

Luke sleeps in his house about twice a week, does homework there after school and invites friends round. He enjoyed building his little house so much that he plans to build a second, bigger one, and in a few years' time he'd like to live in it full time.

- 1** What is the writer doing in this text?
A giving advice to teenage builders
B describing an interesting project
C saying why small houses are popular
- 2** Why did Luke decide to build a little house?
A He needed something to do.

C It was a way to meet new people.
- 3** Luke's dad was happy to

B lend Luke money for the house.
C show Luke how to do things.
- 4** What does Luke say about building the house?

B He learned a lot while he was doing it.
C He broke some things at the beginning.
- 5** What would Luke like to do next?
A make another little house
B build houses for his friends
C move out of the family home

GRAMMAR REFERENCE AND PRACTICE

UNIT 1

PRESENT SIMPLE AND PRESENT CONTINUOUS

Present simple

We use the **present simple** to talk about things that are always true or that happen regularly. We often use it with words like *often*, *usually*, *every day*, *twice a week*, etc.

I usually work hard.

She learns English at school.

Does he work here? No, he doesn't.

Do they often go to the cinema? Yes, they do.

Spelling: third person -s

Most verbs, add -s	<i>learns, works, lives, walks</i>
verbs that end in -o, -s, -sh, -ch, -x and -zz add -es	<i>goes, misses, watches, boxes, buzzes</i>
verbs that end in consonant + -y, remove the -y and add -ies	<i>studies, carries</i>
irregular verbs	<i>have → has</i>

Present continuous

We use the **present continuous** to talk about things that are happening now or at the moment. We often use it with words like *now*, *at the moment*, *today*, *this week*, etc.

I'm teaching my brother to swim at the moment.

They're playing tennis now.

You aren't practising the piano much this week.

Are we getting fitter? Yes, we are.

Spelling: -ing form

Most verbs add -ing	<i>playing, going, learning</i>
verbs ending in -e, remove -e and add -ing	<i>live → living, make → making</i>

verbs ending in -ie, change the -ie to -y and add -ing

VERBS WE DON'T USUALLY USE IN THE CONTINUOUS

There are some verbs which we don't normally use in the present continuous:

We often use *can* with these verbs.

*I **can hear** the sea from my bedroom.*
(not *I'm hearing*)

- When *think* means 'have an opinion' about something, we do not use the continuous.
