BRYANS HIGH SCHOOL **all.about.me**

Hi everyone. I'm Lucas. I live with my parents, my sister and my two brothers. Some of my classmates think I'm quite serious, but I don't agree. I'm just a bit shy, and I'm quite independent. My main interest outside of school is computers and gaming. But I'm not just a gamer. Right now, I'm taking part in a competition for young game designers. So at weekends, I'm learning to code with my aunt. She's a professional coder. She's also a really patient teacher – I'm finding coding impossible at the moment!

CONNECT

Hello! I'm Alina. I live with my grandparents. I'm an only child – so no brothers or sisters. My friends and family say I'm a cheerful person. And they're right. I think there's always something to smile about! In my free time, I'm into various typical teenage hobbies, but my favourite is sports. I'm in the school hockey and football teams. And this year I'm having tennis lessons. I'm really making progress, I think. In a few months, I'm going on a kayaking trip with my cousin. We've never done it before but we're really excited.

CONNECT

My name's Alfie. I live with my mum, dad and sister, Melissa, right opposite the school. I'm quite friendly and funny, but I [1] _____ be quite serious at times, too. One [2] _____ my biggest interests is film: thrillers, drama, science fiction – I don't mind. I like watching [3] _____ all. One day, I think I'd like to work [4] _____ film.

This year, I want to visit a film studio. There's [5] _____ near London where all eight Harry Potter films were made. My dream is [6] _____ fly to Hollywood and see a studio there.

FASHION and MUSIC

06

Before the mid-1950s, there was no such thing as 'youth culture'. Most young people wore the same fashions as their parents, and they listened to the same kind of music. But that all changed with the arrival of rock 'n' roll.

It started with the 1954 song Rock Around the Clock by Bill Haley and the Comets. Although the older generation didn't understand rock 'n' roll, teenagers fell in love with it straight away. It was a new sound – lively and exciting – and with it came new fashions in clothing. Young men wore smart suits with skinny ties, like the popular singers Buddy Holly and Elvis Presley. Young women liked groups such as The Supremes, and they wore loose-fitting skirts which looked great when they danced.

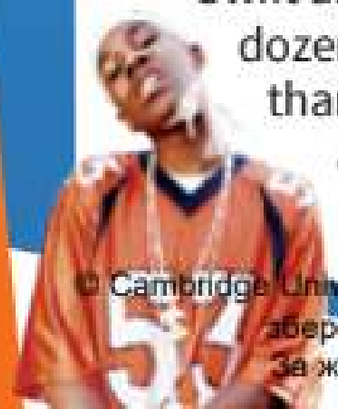

In the 1960s, rock bands like The Rolling Stones became symbols of the growing youth culture. Young women wore very short 'mini skirts' – the older generation was shocked! The mid-1960s to the mid-70s was the hippie era. Young hippies were interested in peace and love, and they listened to The Beatles, Dusty Springfield and Joni Mitchell. Men and women alike had long hair and wore flowery clothing and sandals.

The punk music of the late 70s was loud and angry, and the trends matched the music. Punks wanted to shock people.

They dressed in second-hand clothes, which they often tore to look more individual, and their hairstyles were colourful and messy. Teenagers were into bands like The Clash and singers like Debbie Harry and Patti Smith. In the 1980s, long curly hair and bright colours were trendy, and people listened to Michael Jackson, Madonna and U2.

By the 1990s, teens were in love with the look and sound of singers like Britney Spears. It was also the decade of 'boy bands' and 'girl bands' – the Backstreet Boys and the Spice Girls were 'top of the pops'. Black American music called hip hop became popular internationally. Hip hop stars wore tracksuits, gold rings and necklaces, and they sang about having money and driving expensive cars.

Today, people are interested in the styles of their favourite YouTubers and tunes by superstar DJs like Calvin Harris. Hollywood actors or bestselling singers such as Taylor Swift and Ed Sheeran are also popular. There are dozens of genres of rock and dance music and, thanks to the internet, music and clothing fashions are here today and gone tomorrow.

UK CULTURE Traditional clothes

11

In many countries there are traditional clothes that people wear for special occasions, such as national holidays and popular folk festivals. The United Kingdom includes four different countries – England, Wales, Scotland and Northern Ireland – and each country has its own history and special customs.

One of the most traditional items of clothing in the UK is the kilt. There are many versions, but the most famous ones are the kilts that men wear in Scotland on special occasions. Traditional Scottish kilts are made with five metres of tartan, which is a fabric with vertical and horizontal lines in different colours. Many Scottish families have a tartan with their own special colours. At the front of their kilts, Scottish men usually wear a small bag called a sporran to carry money and personal items. Scottish women wear a tartan skirt with a blouse and a tartan cloth on their shoulders called a shawl. They may also wear tartan dresses.

England hasn't got a national folk costume, but some people wear special clothes for traditional events, such as Morris dancing shows. Morris dancers can wear many different things, but they typically have white or black trousers or breeches. Some people also wear hats and short jackets called waistcoats, with long, colourful ribbons that move when they dance. It's quite spectacular!

In Wales, some women wear a traditional costume on important occasions, such as St David's Day, on 1st March. On those special days, many women wear a long dress with a red shawl over their shoulders. However, the most unusual part of the costume is a tall, black hat. It looks like the very formal hats that men wore in the past. Welsh men haven't got a special costume for festivals, but they often wear old-fashioned trousers called breeches.

In Northern Ireland, traditional Irish step dancing is very popular, and the dancers usually wear special clothes for their performances. Women and girls typically wear a short dress so they can kick up their feet quickly and easily. They sometimes wear tights on their legs, especially when the weather is cold. Men and boys usually wear simple clothes to step dance, such as black trousers, a shirt and a colourful jacket.

Simon, 47, and his daughter Emily, 16, answer today's question …

Is teenage life better now than in the past?

Simon Everything is so different from when I was a teenager. Technology is the greatest change. I had a computer – but only for games, really. And I remember my dad's first mobile phone in the car – it was huge! But the internet and smartphones changed teenage life forever. We wrote letters; they are texting each other all day. We bought a few CDs every month; they've got almost every song in the world – in a tiny device in their pocket! When we moved home, we often never saw old friends again. Now it's simple to stay in contact with anyone, anywhere. To me, teenage life looks more exciting than it was.

Not everything is positive, of course. I don't think teenagers now are as healthy as we were in the past. They don't do enough exercise. Without technology, we were more active and spent a lot of our free time outside. Roads were safer, of course, but it's unbelievable to think that often our parents didn't have any idea where we were!

Emily Yes, technology makes our lives easier and is now essential for entertainment and school. But it brings problems too – the worst are awful things like bullying on social media …

My problem is that teenage life is too busy now. On weekdays, as well as normal lessons, there are clubs at lunchtimes. Then after school on Mondays I have Spanish lessons, trumpet on Wednesdays and our band practises on Fridays. And weekends are just not long enough! On Saturday there's yoga club and on Sunday we often see relatives. Then there's homework, of course. Sometimes I'm exhausted on Sunday evenings!

The future will be harder for us, too. And I get worried about that. My friends and I feel the most important thing is to get a good degree – or we won't be able to leave home and get a job. And that means we have to get good marks in everything now. It's stressful.

I think my parents' teenage years were more relaxed than ours are today.

Hi Mark,

It's great to hear from you. Congratulations on becoming captain! Awesome news!

I love our new house. It's brighter, bigger and there's a garden. Brighton isn't as big as Manchester, but there are loads of things to do. There's a really good football team here. They're great!

My school is the largest in Brighton, but it isn't as modern as Victoria Park. I met a boy called Simon on my first day. He's into computer games like me. I guess he's my best mate at the moment!

Write soon,
Jamal

READING

1 **Read the text quickly and answer the questions.**

1 Who are the new BMXers?
2 Do they like racing or 'freestyle' BMX?

17 **Did you think that BMX racing was just for men? Think again ...**

Meet the new BMXers

It was a dark, rainy winter's day at the National Cycling Centre in Manchester (UK) and I was taking photographs of the girls' BMX team. They were riding around the track with apparently no fear. They all obviously had a real passion for the sport.

Olivia, aged 15, has long, brown hair. She's smart and confident, and the way she was smiling showed how much she loved it. How did she first become interested in BMX? [1] _____. Although all the racers were boys, she knew instantly it was the sport for her. 'It's not harder for girls to get into the sport,' she said – anyone can do it. 'BMX gives you knowledge. When you come to the track, you learn something new every day.'

So what is a BMX? A BMX is a bike with small wheels and a low seat. Small wheels actually go faster than big wheels at speeds of up to 20 km/h. [2] _____ These mean that a bike can travel quickly without the rider using their legs too much. But there are no gears on a BMX, so the rider has to pedal a lot to go fast. [3] _____.

Some BMXers love doing jumps and crazy stunts – this is called 'freestyle'. Other riders prefer racing. BMX races are fast but short. [4] _____ Both riding styles have something in common: riders fall off their bikes a lot. That's why they all wear a helmet, as well as knee and elbow guards under their racing clothes.

Many people think that BMX is scary or dangerous, but fear isn't a thought that goes through this BMX team's minds. [5] _____ They don't see the difference between male and female, not while they are out on the track doing what they enjoy the most.

2 **Read the article again. Five sentences have been removed from the text. For each space choose the correct sentence. There are three extra sentences which you do not need to use.**

A She laughed because some of the riders were moving their legs so quickly.
B They usually only last for about 40 seconds.
C BMX race bikes can be very expensive.
D She was watching her older brother race.
E They weren't worried by the rain either.
F They see BMX as a fun sport, a way of life, a good social activity.
G Normal bikes have at least 20 gears.
H This is the biggest problem with BMX races.

3 **Match the highlighted words in the text to the meanings.**

1 part of a bicycle that controls the speed of the wheels
2 tricks or difficult jumps on a bike
3 a path, often circular, used for races
4 a hard hat that protects your head
5 things you wear to protect parts of your body when playing a sport

4 ways to keep fit

21

Scientists say that people should do one hour of physical activity every day. It can be sports, exercise or everyday activities, such as walking. In the USA, only 25% of teenagers do enough physical activity, and that's a problem. In addition, teens need three types of training to keep fit: weight, aerobic and flexibility training. They also need to train well for specific sports. Good coaches understand athletes' needs and help them to train properly.

1

Weight training gives you stronger, healthier muscles. If you lift big weights, your muscles get larger. You can also use smaller weights and lift them more times. This trains your body to exercise for a longer time. At the gym, some people use weight machines, but other people prefer free weights. In both cases, they must lift the weights carefully to prevent accidents.

2

Aerobic training is good for you because it makes your heart work harder. You can do light exercise for a longer time, such as cycling slowly for an hour. This gives you stamina so you can exercise longer. You can also cycle hard for five minutes and then rest for a minute. Then you cycle for another five minutes and rest again. This is interval training and it helps you become faster.

3

Flexibility training is also important for fitness. For example, athletes need to warm up and stretch their muscles before they exercise. Martial arts, such as Tai Chi, are great for flexibility training. People also need balance for these activities so they don't fall down. In flexibility training, it's best to go slowly and be careful. You don't want to hurt yourself!

4

Sport-specific training is a special exercise routine that helps athletes play one sport better. For example, professional football players run a lot and do extra weight training for their legs. In contrast, tennis players do more exercises for their arms. They also stop and start a lot during matches, so interval training is helpful for them. This is when you quickly change between doing high-intensity exercise and low-intensity exercise.

PROJECT

An exercise plan

Make a plan for doing exercise in your free time. Think about the questions and make notes.

- What sports can you do after school?
- What other exercise can you do on school days?
- What activities do you usually do at the weekend?
- What sports or exercise can you do with friends?
- What other activities can help you to keep fit?

Present your exercise plan to the class.

That isn't ALLOWED HERE ...

In Singapore, few people chew gum on the streets. You can't bring it into the country and you can only buy it from the chemist's with an ID card! What unusual rules or laws have you come across around the world? And how did you find out about them?

I was away with my parents in Honolulu, Hawaii last year. One afternoon, we were leaving a restaurant when it started raining hard. My mom suggested visiting the Natural History Museum as we were directly opposite it. We were crossing the road, when I got out my phone. I wasn't really thinking. I wanted to check my messages. Anyway, almost immediately I heard the noise of a loud motorbike. My first thought was: phone thief! But when I looked up, I saw a police officer. We looked at each other for a few seconds and then I noticed she was pointing at my phone! I had no idea, but it's actually illegal to look at your mobile phone on a pedestrian crossing in Honolulu. I'm only 16 but I had to pay a $15 fine! It was really unfair!

Alexa, San Diego, US

We went camping in Italy last year and the campsite had a huge pool. When we arrived, my brother and I got changed straight away and jumped in. We were really enjoying ourselves when suddenly we heard a loud noise. Everyone was looking at us and two lifeguards were shouting in Italian. There was probably a rule about jumping in, we thought. It was quite crowded. But then the lifeguards started pointing to their heads. For a few seconds we were really confused. Then we realised: everyone was wearing swimming caps! We looked it up online later. It's actually the law there. Even my dad had to wear one, and he's completely bald!

Martin, Dublin, Ireland

When my dad got a job in Sydney, Australia, we moved there from the UK for two years. We were living close to the centre and Dad started going to work by bike. He didn't even have one back in the UK! We knew that bike helmets are compulsory in Australia. And Dad always wore one. So when the police stopped him and some other cyclists at a traffic light one morning, he was feeling relaxed. But can you believe this? While the officers were checking the bikes, they noticed that several of them didn't have bells – including Dad's. And all bikes must have them in the city. They were each fined $106 – about £60! That feels so unfair.

City problems — TEENAGERS' SOLUTIONS

28

These two teenagers noticed two everyday problems in cities. And they decided to do something about them.

While Ben Gulak was visiting Beijing, China, he was shocked at the air pollution in the city. He soon realised one of the main causes: transport. In Ben's home town in Canada, the traffic is quite light, but Beijing has a lot of traffic. Some people drive cars, but a lot of people ride scooters. They're cheaper and they don't need much petrol. They're also lighter and easier to drive through traffic jams. There is one problem: petrol scooters can produce ten times more air pollution than cars.

Back in Canada, Ben started thinking about the problem. He wanted to design a new type of transport – something as small as a scooter, but cleaner. He called his invention the Uno – a motorbike which looks like … half a motorbike! It doesn't use any petrol – just electricity.

Ben won a prize for his invention and now he's completed three different versions of the bike. Will we one day see it on our roads?

When Ann Makosinski was young, she only had a few toys to play with. Instead, she loved inventing new things from rubbish around the house. They didn't work, of course, but Ann soon [1] _____ an interest in science and electronics.

The idea for her first successful invention came from a friend in the Philippines. Ann, who is half Filipino, half Canadian, [2] _____ that her friend was doing badly at school. The [3] _____ was that she couldn't study at night because there wasn't any electricity. Ann was amazed to discover that many people, over a billion in fact, don't have [4] _____ to electricity. And then she remembered a fact from her science class: the heat in a person means each of us is like a walking 100W light bulb. So Ann designed a torch that uses just the heat from a human hand. It wasn't as powerful as a normal torch and only [5] _____ a little light. But Ann's invention won an international science competition with a prize of $25,000 to [6] _____ her education in the future.

NEW YORK, NEW YORK

New York is one of the most exciting cities in the world. It's the capital of New York State and the largest city in the USA, with a population of about 8.5 million. The city's nickname is the Big Apple and people also call it 'the city that never sleeps' because it's busy day and night.

History

Over the past two centuries, many millions of people have moved to the United States. In the 19th century the immigrants were mainly Europeans. By 1850, about 25% of New Yorkers were Irish.

The population of New York grew from 2.5 million in 1890 to 7 million in 1930. Since the 1960s, the immigrants have been mostly from Latin America and Asia. This incredible mix of people has made New York City one of the most multicultural cities in the world. Today, about 30% of all New Yorkers were born in another country and it's estimated that you can hear over 800 languages in the city. Some immigrants have created their own neighbourhoods, like Little Italy, Chinatown, and Spanish Harlem, each of which offers a different experience of New York culture.

New York life

There are five main areas in the city, called boroughs: Manhattan, the Bronx, Queens, Brooklyn and Staten Island. Manhattan is the most famous of these, with its tall skyscrapers, like the Empire State Building. The tallest is One World Trade Center, which is 541 metres tall.

New Yorkers call Times Square 'the crossroads of the world'. It's where New Yorkers come together to celebrate special events, to go to the movies and the theatre, and to enjoy street food from every corner of the world. People that are more interested in shopping, fashion or music hang out in trendy SoHo in the south of Manhattan.

Manhattan has plenty of green spaces, including the famous Central Park. About 40 million people, New Yorkers as well as tourists, visit the park every year to enjoy walking, cycling, skating and picnics.

From Manhattan, it's a short walk over Brooklyn Bridge to get to the borough of Brooklyn. Here, people visit the varied street markets or chat with friends in the borough's fashionable coffee shops. At weekends, thousands of New Yorkers go to an area of Brooklyn called Coney Island. Here, they escape the stress of city life by relaxing on the three-kilometre long beach or by having fun at the famous Luna Park theme park.

When it's time to go home, New Yorkers can either take the 24-hour subway or catch one of the city's famous yellow taxi cabs.

don't get angry – get advice

LOGIN HOME ASK US VIDEOS LINKS 34

1 Read problems 1–3 quickly. Who isn't annoyed with a family member?

1 KAITLIN, 15, DERBY

I'm quite a shy person and I haven't got a lot of friends. I was walking home from school yesterday, when I saw some boys from my class. They were laughing at me. One of them said, 'She's always on her own!' and he pointed at me. It was unbelievable! Why do I have to be with someone all the time? What's wrong with being on your own?

2 DYLAN, 14, PENZANCE

My little brother is really annoying. Yesterday, I found him in my room. He knows he mustn't go in there. And he was reading my diary! It made me really angry. Then we had an argument because he took my phone. He sent about 50 texts and now I haven't got any credit. Help!

3 ALEX, 15, LONDON

My best mates, Sasha and Mandy, are just like me. They're often late and they forget things, but they behave themselves (most of the time!). I was hanging out with them last Saturday and I had to get home by 10 p.m., but we were having fun and I didn't realise the time. I was a bit late because they didn't have to get home until 11 p.m.

Now my parents say I can't spend time with my mates because they can't trust me, and I have to get home by 9.30 p.m. It isn't fair! I don't want to fall out with my parents, but they think I'm still a child. What should I do?

What you think ...

A I agree. Sometimes you don't have anything in common with other people, and that's fine.

B He should apologise. Maybe you should lock your door.

C You shouldn't get angry. It's important to talk to your parents. Then you'll understand why they're worried.

D You must show them you can change, so try to be really sensible for a month – or forever!

E Maybe you should put a password on your phone.

F Friendship is important, but you don't have to be with someone all the time. It's good to be independent.

TOKYO

CITY MAP

36

1 FAST FOOD HEAVEN › THE STREETS ARE FULL OF RESTAURANTS selling noodles and sushi. Noodles look like spaghetti and they're served with fried meat, seafood or vegetables. Sushi is rice served with uncooked fish or vegetables. The flavours are incredible. You can even take a class to learn how to prepare your own sushi.

2 TECH CULTURE › IF YOU WANT TO DISCOVER the Japanese love of technology, spend some time in a gaming café. Try the Internet Comic Café Manboo, where you can admire thousands of manga comics for sale as well as play all the latest computer games. They rent rooms with sofas where gamers can lie down after long sessions. They even have showers – you'd probably need one after an 8-hour overnight gaming session!

3 **Read again and choose the correct answers.**

1 What is sushi?
- **A** a meat and rice dish
- **B** fresh fish and vegetables
- **C** rice with fish or vegetables
- **D** a type of noodle

2 At Manboo, you can't
- **A** buy modern sofas.
- **B** play computer games.
- **C** get manga comics.
- **D** have a shower.

3 What happens in the Harajuku district?
- **A** Teens play computer games.
- **B** People go to cosplay cafés.
- **C** Japanese pop stars hang out.
- **D** People wear unusual clothes.

4 A vending machine is something that
- **A** makes drinks.

- **B** have hedgehogs as well.
- **C** are well-known.
- **D** are in the Roppongi district.

WE'RE OFF TO TOKYO

I can't wait! We're leaving on Saturday – a taxi is picking us up at 8 a.m. and we're going straight to the airport. We're going to have a great time! On the first day, we're going sightseeing in and around the Roppongi district. We're going to visit a cat café and have a go at gaming. Apart from that, I'm not sure. Mum says we're going to look around the shops but I'm not so sure about that. I've found this great guide to the city, but has anyone got other suggestions?
Olivia Burton

3 FASHIONISTAS › BE SURE TO VISIT the Harajuku district. It's where all the trendy Japanese teens hang out, so be prepared! You're going to see a lot of people wearing 'cosplay' clothing. Cosplay is short for 'costume play' and it's a Japanese pop tradition. Girls and boys dress in incredible costumes inspired by their favourite anime (manga cartoon) or computer game character.

4 WEIRD AND WONDERFUL › TOKYO IS FULL OF UNUSUAL THINGS to see and do. It's hard to walk a block in Tokyo without seeing loads of vending machines! Most sell cold drinks but others sell things like dog food, umbrellas and hamburgers! How about going to one of the famous cat cafés, where you can play with a cat or a kitten while you drink your coffee? There are around 60 cat cafés in Tokyo! There's even a hedgehog café in Roppongi.

LIFE SKILLS

Dealing with conflict

We never have exactly the same ideas or opinions as our friends or family members. We often disagree with people and sometimes we get angry or have arguments. When that happens, we need to deal with conflict in a positive way and work together to solve the problem.

Friends *and* arguments

Tips for dealing with conflict

39

What happens when you and your friends argue? How should you react when they get angry or upset with you? Follow these helpful tips to deal with conflict in your friendships and find a solution that works for everyone.

1 _____. When we're angry, we might say or even scream things that aren't kind. It's always better to keep cool and think carefully before we speak. Count to ten in your head, and if you can't relax, then walk away. Sometimes you have to do that!

2 **Listen first.** Give the other person a chance to speak without interrupting them. You have to listen carefully and pay attention to your friend's face and body language. Try to imagine how your friend is probably feeling at that moment.

3 _____. You have to be honest about your thoughts and feelings. Explain the problem clearly and say what you need from your friend. You should choose your words carefully and try to be nice to the other person. You don't want to start a new argument!

4 **Admit your mistakes.** Remember that even the best people make mistakes and nobody is perfect. It's OK to make mistakes, but we have to admit them and then say we're sorry. We should also forgive other people when they apologise for their own mistakes.

5 _____. Two heads are always better than one. You should have a conversation with your friend about how you could solve the problem. And you don't have to keep it a secret. You can get help from another friend or an adult if that's helpful.

6 **Cool down.** After you've had a serious argument, it's good to relax and cool down. When you feel better, you should go for a walk with your friend or maybe you can do something fun. Why not play a sport or watch your favourite TV show together?

7 _____. Arguments are a normal part of life, and we don't have to worry about every disagreement. But we should try to learn from them. After all, we don't want to repeat the same mistakes again! Think about what happened, and remember that lesson for the future.

2 You should do something to make you feel calm after an argument.
3 We sometimes say bad things to people when we're angry.
4 We don't want to have the same problem twice.
5 Try to put yourself in the other person's place.
6 A third person could help you find an answer.

4 **Match the highlighted words in the text to the meanings.**

1 say that something is true or real
2 stopping someone who is speaking
3 find the answer to something or stop a problem
4 when people have a different opinion about something
5 shout something very loudly, in a high voice
6 movements and positions of your body and face that show other people how you are feeling, without using words

5 **Discuss the questions.**

HELP! I just can't stop ... SHOPPING!

42

Have you ever bought something and then changed your mind? For Alison Jenson, 23, this used to happen several times a week. Alison was a shopaholic. She just couldn't stop shopping and she loved special offers.

Alison's bedroom is full of stuff. 'I've been to every shop in Birmingham, I think,' says Alison. She picks up some trainers. The price tag is still on them. 'I paid £20 for these. They cost £40 originally, so they were half price,' she says. 'But I've never worn them.' Alison's problem wasn't just clothes. She bought jewellery, make-up and hundreds of other small things online. She hasn't used any of them!

According to experts, we all feel excited when we buy something new. For shopaholics, it's a little different. Soon after they buy something, they regret buying it and start to feel miserable. So they buy themselves something else to feel happier. **Psychologists** first described the problems of shopaholics in 1915. However, there was very little research on the subject until recently. Now, doctors think thousands of people suffer from the problem, both men and women, and the situation is getting worse. There are also more teenage shopaholics now, although most young people don't have enough money to go shopping very regularly.

Alison knew she had a problem. 'I often bought something every day. It was usually something small, but I just needed to buy it,' she says. 'When I ran out of money, I started using credit cards. Unfortunately, I couldn't pay them back and the charges quickly became a problem. When I couldn't go shopping, I felt anxious. Then one day, my mum just looked at all the stuff in my room and said, "Alison, this is crazy!" She was right. I needed some big changes in my life.'

Alison's parents helped with her problem and she now feels she has changed. She no longer thinks she's a shopaholic. 'When I want to buy something in a shop, I ask myself two questions,' she says. 'Do I need it? Can I afford it? The answer to both questions is usually "no", so I walk away. It's great!'

I've never enjoyed shopping for clothes. It takes ages, and when I get home I always regret buying something, and then I have to take it back. So one day I decided to try doing it online.

I looked up the website of my favourite clothes shop and soon I had everything I needed. And there were lots of special offers too! While I was paying for everything, I noticed a competition. I could win the money I paid for my clothes. I've never been lucky, but I decided to enter.

A few days later the clothes arrived. Unfortunately, nothing fitted me apart from some socks. So I sent back everything … except for the socks.

A few weeks after that, I got an email. I was one of the winners in their competition. I got back everything I paid for the clothes online. And how much was that? £4.99!

OLLIE, DON'T EAT THAT! 47

When Ollie James was one, his brother had a tiny pet turtle. One day, it disappeared. Then Ollie's mum noticed a turtle's leg, hanging out of Ollie's mouth! This was the beginning of Ollie's interest in very unusual types of food. And, don't worry, the turtle was fine! Now, aged 16, Ollie's eaten everything from ants to zebra. And for the last two years, he's written about them on his blog: 'Ollie, Don't Eat That!'

1 _____

Once my dad brought home some giant toasted ants from a business trip to Colombia. They tasted good, like salty meat. I described them on a website and I got a lot of replies! So I started looking for other unusual foods and I set up a blog to write about them. I've tried over a hundred different things since I started my blog.

2 _____

The strangest is durian fruit, from South East Asia. It's actually illegal to carry them on public transport in some countries because they smell disgusting – like old fruit and rubbish. However, they taste incredible – sweet and creamy. I've also cooked with unusual ingredients. I found a recipe for an ostrich curry online, and last week I made that. An ostrich is a bird, but its meat is dark red. I expected a strong flavour, but it isn't as meaty as lamb. I got it from an ostrich farm in England.

3 _____

That's definitely the cheeseburger in a can. A reader sent it to me from Germany. It tasted like a really low-quality vegetarian burger. It looked horrible and it tasted worse. I really couldn't finish it.

4 _____

Oh, my favourite is miracle berries, from Africa. They taste bitter, and after you eat them anything that's sour tastes sweet! Lemon juice, for example, tastes like sweet lemonade!

5 _____

Not once. I'm always careful that the food is safe. My parents check everything. They've tried lots of things too. They loved my ostrich curry!

Discover British food

50

Many tourists are quite surprised by all the delicious food they can find in the UK. In the past, many visitors had a bad opinion of British cooking, but that was often because they ate in cheap restaurants that only served food for tourists. Fortunately, things have changed in recent years and now tourists can find many types of good quality food all over the country.

Typical favourites

You can find excellent traditional British food in the thousands of cafés, restaurants and takeaways around the UK. A typical café dish, and perhaps the best-known abroad, is the <u>'full English breakfast'</u>. That's eggs, sausage, tomatoes, beans and fried bread. If you want something hot for lunch in a café, try the meat or vegetarian pies on offer.

A classic summer dish is <u>ploughman's lunch</u>, which is a cold dish of bread, butter, cheese, pickled onion and salad. On Sundays, it's typical to have a <u>roast dinner</u> with friends and family. Roast beef, lamb or chicken is served with potatoes and boiled vegetables such as carrots and broccoli, and gravy is poured on top. Gravy is a thick, brown sauce and it's delicious!

Takeaways are really popular in the UK. These are small shops that sell hot food that customers take home or eat on the street. <u>Fish and chips</u> has been a British takeaway favourite for a long time. They fry the fish in batter (a mixture of flour and water) and it's often served with peas, and, of course, lots of chips!

Local dishes

Many places in the UK have local specialities. In Scotland, <u>Cullen skink</u> is a creamy soup with fish, potatoes, onions, and milk. In Wales, one of the most popular dishes is called <u>Welsh rarebit</u>. It's hot cheese on toast. And for dessert you can try some <u>bara brith</u>. It's a sweet bread with fruit and spices.

International options

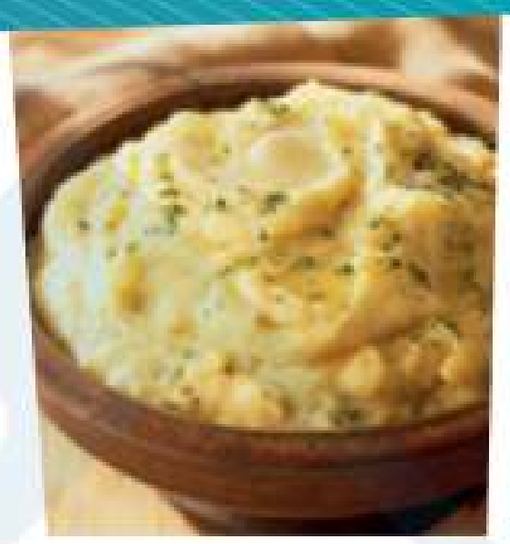

Since the 1950s, many immigrants have come to Britain from all over the world and they have brought lots of international dishes with them: curry from India and Pakistan, pizza and pasta from Italy, along with dishes from China, Japan, Egypt, Mexico and many other places. Curry, in particular, has become so popular that it is often called a 'national dish' of the UK.

With all of these choices, tourists nowadays won't have any problems eating in the UK. Their biggest challenge will be deciding what to eat!

We will live for **1,000 years**

54

How long do you expect to live? One hundred years ago, people died at the age of about 50. These days, people often live for 90 years or more, and doctors predict that most teenagers alive today will live to be over 100. But one scientist, Dr Aubrey de Grey, thinks that medicine will soon allow people to live to the age of 1,000.

READING

1 Read the news report and the comments quickly. Who agrees with Dr de Grey?

2 Match the highlighted words in the article to the meanings.

1 medicines
2 an illness
3 broken, hurt
4 the opposite of dead
5 say something will happen

3 Read the news report again and answer the questions.

1 How has the length of human lives changed in the past 100 years?
2 What do most people die from today?
3 Why does Dr de Grey compare human bodies with cars?
4 How might Dr de Grey's ideas affect the human population?
5 What will people die from if they don't die from disease?
6 What is Simone's opinion about living for ever?
7 What would Orest prefer scientists to work on?

TALKING POINTS

What do you think of Dr de Grey's ideas? Do you agree or disagree with Professor Olshansky? Why? / Why not? Would you like to live to be 1,000? Why? / Why not?

Dr de Grey says that most people die from old age, or rather from a disease that old people's bodies are unable to fight. But, he says: 'I think we're close to keeping people so healthy that at the age of 90, they'll wake up every day in the same physical state as they were at the age of 30.' Dr de Grey believes that doctors can look after the human body in the same way that we look after things like old cars. Scientists have invented drugs that can completely repair old or damaged parts of our bodies. Their research suggests that people who take these drugs aren't going to get old or die from common diseases. Their bodies are going to stay healthy – and young. De Grey's plans mean there might be a lot more people on the planet, but de Grey says that doesn't matter, because our priority should be health not population. 'We still need to give people the best healthcare that we can,' and de Grey is going to continue to do exactly that through his research. However, Dr de Grey warns that people won't live for ever. Although people won't die from the diseases of old age, they'll still have accidents, such as car crashes.

Many scientists disagree. All through history, scientists have predicted that we will live for ever, says Professor S. Jay Olshansky. A Chinese scientist, Ko Hung, said 1,700 years ago that eating very little would help people live for ever, but he died at the age of 60. The English scientist Roger Bacon thought we could live for ever by eating gold, but he died aged 78. There's a long list of promises, says Professor Olshansky, but there's no evidence that people will ever live for 1,000 years.

Comments (43)

I don't believe this. Anyway, who wants to live that long? Life will become very boring after a few hundred years!
Simone, Peterborough, UK

People love the idea of living for ever, but I think it's impossible. I'm going to look after my own health, and forget about Dr de Grey.
Hannah, Sydney, Australia

Dr de Grey is probably right. I think I'll find out more about these drugs! But millions of people die every year from cancer, for instance, and we can't even cure that yet. Let's cure cancer first!

Weird animals

Animals > wild **weird** wonderful

1

2

3

A _____ They think that at least 80% of animal and plant life on Earth could still be unknown. And of the known animals, there are some pretty unbelievable species.

4

B _____
The **blobfish** could be the world's ugliest animal. Out of the water, it has a face like an old man because its body is soft and full of fat. It looks more like a 'normal' fish 1,000m underwater because the water pressure pushes its body into shape. The **lamprey** looks like it might be something out of a horror film! Actually, it's a fish, and in this picture its mouth is open. To eat, the lamprey bites another fish and drinks the blood – like a vampire. As its name suggests, the **star-nosed mole** looks like it has a star on its face! In fact, those are tentacles around its nose. It lives under the ground and is almost blind. It moves slowly and uses its tentacles to feel for worms in the dark. Once its tentacles find a worm, it can eat it in 0.25 seconds!

C _____ Sometimes harmless-looking animals can be extremely dangerous as well. The **slow loris** has a sweet face and huge eyes, but be careful – it might bite you, and there's poison in its mouth. The **golden poison dart frog** looks beautiful, but you mustn't touch it. There's enough poison on the back of this frog to kill 10 people! The **pufferfish** can kill people even when it's dead. In Japan, pufferfish (or *fugu*) is a rare and expensive dish. It must be absolutely delicious because people who eat it are taking a big risk. Parts of its body contain poison. Eating the wrong part can cause death, and only special chefs are allowed to prepare it. Still, around 100 people die every year from eating *fugu*.

READING

1 **In pairs, discuss the animals in the photos.**

What kinds of animal are they? Where do they live? What is interesting about them?

3 **Match the sentences to spaces A–C.**

1 What animals do you think are the most dangerous – a snake, a spider, perhaps a shark?
2 There are some very funny-looking animals out there.
3 Scientists discover hundreds of new and unusual animals every year.

4 **Match the highlighted words to the meanings.**

1 not dangerous
2 a substance that can kill you if you eat it
3 unable to see
4 quite, but not completely or extremely
5 the surface of the earth
6 the physical form of something

5 **Discuss the questions. Read the article and check.**

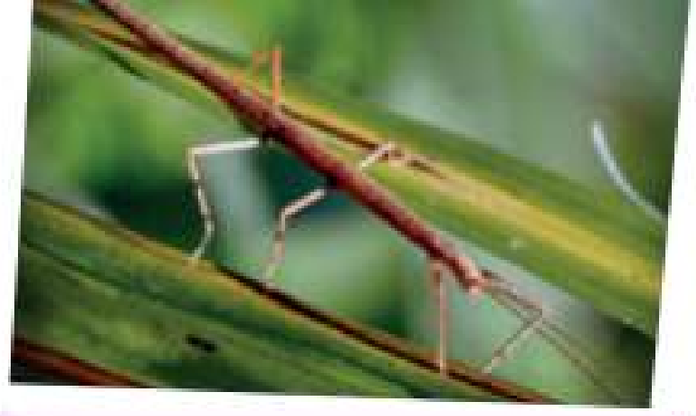

1 Why does the blobfish look less ugly 1,000 m underwater?
2 Why is the lamprey similar to a vampire?
3 Why does the star-nosed mole need tentacles?
4 How can the slow loris hurt people?
5 How can the dart frog kill people?
6 Why do people eat pufferfish?

ANIMALS at work

We're always hearing stories in the news about how we need to save the planet's wildlife. But sometimes humans need help too. In today's show we look at how clever creatures can help people to live normal lives – for example, people who are blind, or wheelchair users – as well as how animals help the emergency services and army to keep us safe.

LIFE SKILLS SOCIAL RESPONSIBILITY

RESPECTING THE ENVIRONMENT

1 **Ask and answer the questions with a partner.**

1 How often do you use public transport?
2 Does your family recycle at home?
3 Do you like spending time in natural areas?

2 **Read the text quickly. What are the three Rs?**

LIFE SKILLS

Respecting the environment

The environment is the natural world around us. It includes the land, water and air where plants and animals live. People also need the environment to live, so we must work together to protect and care for our natural home.

Caring for our world

62 **Many countries have programmes to care for the environment, but ordinary people can also help in everyday ways. For example, we can follow the three Rs: reduce, reuse and recycle. We can also care for natural areas and teach others about environmental protection to keep our world clean, beautiful and healthy.**

Reduce, reuse, recycle

The first way to help the environment is to reduce any resources that you use. For example, you can turn off the water while brushing your teeth, and have a short shower instead of a long one.

Turning off lights and other electrical items when they aren't needed also saves energy. And eating less meat can help the environment too - it takes ten times more energy to produce beef compared with vegetables.

Perhaps the biggest change we can make is reducing how much plastic we use. Try to buy food that is not wrapped in plastic and buy a reusable bottle for water instead of buying water in plastic bottles.

We must also reuse things more often. For example, when we're going to the supermarket, we can take reusable bags. If we do that, we won't need plastic bags, which usually end up in the rubbish. Other things can also be reusable, such as batteries. If we use rechargeable batteries, we won't need new ones all the time. We can also sell or give away things that we don't want, like old clothes or books, so other people can reuse them.

The third rule is to recycle as much as possible. If we recycle paper and cardboard, we won't need to cut down so many trees. Many sorts of plastic, metal and glass are also recyclable. If we recycle these old materials, it will save resources and use less energy than creating new materials. Look out for recycling bins in your neighbourhood and separate materials correctly when you recycle.

Protect and teach

In addition to the three Rs, we need to care for natural spaces, such as parks. We should always throw paper, plastic and other litter into the correct rubbish bins. When we go camping, we mustn't feed any wild animals, such as ducks. We don't want them to follow people around for food. And if we make a fire to cook our food, we must be careful so we don't start any forest fires.

We can also inform other people about the need for environmental protection. We can make presentations at school and collect money for environmental organisations. Finally, we can celebrate special occasions about nature, such as Earth Day on 22nd April.

Eating when you're feeling ill

Sometimes the last thing you want to think about when you're not feeling well is food. You aren't hungry and nothing tastes good. But your body still needs energy, so it's important to eat. Soup is an excellent food at this time. It's simple to prepare and easy to eat. Plain yoghurt without any [1] _____ added is also good. If you've got a cold, [2] _____ dishes, such as curry or anything with chilli, will help. But avoid them if you're [3] _____ from stomach ache. Always drink plenty of water, and stay away from juices if you have a [4] _____ throat.

Finally, think about the times when you [5] _____ ill as a young child. What food did your parents prepare for you then? Some scientists advise eating the same food. The positive [6] _____ from your childhood can actually help you to get better.

TALKING POINTS

Would it be a good idea to have two separate days off every week, instead of a weekend? Why? / Why not? What's your worst day of the week? Why?

65

The WORST day of the week

Ask someone who goes to school from Monday to Friday for the worst day of their week and many people will say Monday. On Mondays the fun of the weekend has just finished and the week has just begun. [1]_____

However, two maths professors in the USA have just completed research that tells us more about the worst day of our week. Peter Dodds and Christopher Danforth analysed 10 million sentences on social networking websites like Facebook and Twitter. [2]_____ Then, the professors came up with a system of scores for words, between 1 and 9. They gave positive words like 'hopeful' and 'relaxed' high scores. Negative words, like 'stressed' and 'exhausted', got low scores. [3]_____

Their results could change your life – or at least your week! According to the professors, Sunday is the happiest day of the week. [4]_____ Monday is actually the second happiest day of the week. People haven't forgotten about their weekends yet. And the worst day of the week for most people is … Wednesday! [5]_____ As a result, their memory of the previous weekend has gone, and there are two more days before the next one.

The research found another surprising fact: people between 45 and 60 are the happiest people online, but the most miserable group is … teenagers!

Comments

Ryan, *Cambridge*
Sunday evening is definitely the worst evening of my week. I always put off starting my homework until then and I have to work until midnight.

Omar, *Riyadh*
It's different here. Our schools are closed on Friday and Saturday. So I think my worst day is probably Tuesday.

Anna, *Kraków*
I agree with this research. I always feel dreadful on Wednesday mornings.

READING

1 Discuss how you think people can get their first role in a film.

2 Read the text. Did you think of the three ways that Kameron suggests?

SO YOU WANT TO BE **IN A FILM?**

67

HERE'S HOW ANYONE CAN DO IT …

BY KAMERON BADGERS

My best friend and I have just appeared in a film! It sounds unbelievable, but the truth is: it was easy. We were 'extras', and anyone can be an extra. Extras act in films or TV shows, but they aren't the main actors. They might be people who are chatting in a restaurant, walking down a street or playing sports. Sometimes, with smaller films, people are happy to work for free as extras. Although you don't get paid, you get to hang out with cool people, learn about film making and support a local director. Also, film companies provide great lunches!

There are three ways to get hired as an extra:

1 JOIN A CASTING WEBSITE I found a national website which producers and directors look through to find extras. It was free to join. I just had to send a photo and fill in a questionnaire about my skills and abilities, for example sports I'm good at, musical instruments I can play, and whether I have a motorcycle licence. A director is the person who is in charge of filming. A producer is responsible for the team that makes the film. Producers are interested in anyone, from babies to grandparents. Hopefully, you'll get something cool like a part in a reality show or a period drama!

2 CONTACT YOUR LOCAL FILM BOARD Film boards help local companies with things like money and the contacts they need to make a film. They'll also send you information about directors who are filming in your area.

3 TAKE ACTING CLASSES Drama schools are often the first place where producers look.

FINALLY, A FEW WORDS OF WARNING!

- Be prepared for long waits: you'll spend more time doing nothing than appearing in a scene.
- Forget advertisements that say they'll make you famous. They probably won't!
- Remember: this isn't your 'big chance' to become a star. Extras are there to do a job, not because they hope to 'show what they can do'.

3 Complete the sentences with the correct form of the highlighted words from the text.

1 The teacher gave her a _____ about being late.
2 Do you want to _____ in a video that I'm making?
3 The team is going to _____ a new coach.
4 I'd like to talk to the person who's _____ here.
5 My brother played the _____ of a rock singer in a short film.
6 It's hard preparing for exams, but my teachers _____ me in various ways.

4 Read the text and answer the questions.

1 How did Kameron appear in a film?
2 What do extras do?
3 What's the difference between a producer and a director?
4 Why should you take acting classes?
5 Why might it be boring to be an extra?

The USA

The biggest film studios in the USA are in Hollywood, California. However, many studios make their films in other states, like New York and Louisiana. Canadian locations, like Vancouver and Toronto, are also popular because it's cheaper to work there. The most renowned film awards in the USA are the Golden Globes and the Oscars. Both ceremonies take place in Los Angeles, California.

Big hits: ***Black Panther, Jurassic World***

China

Chinese audiences watch many films from the USA, but they have a dynamic national industry too. In the past, Chinese films were often about serious, historical topics, but now studios also make horror films, thrillers, comedies and romances, with Chinese stars, of course! One of the most famous actresses is Yang Mi. She's also a pop singer and fashion model.

Big hits: ***Monster Hunt, The Great Wall***

Japan

In the 1950s, Japan became famous for action-adventure films about martial arts, like Seven Samurai or The Hidden Fortress. In 1954, there was also a very popular film about a giant monster, called Godzilla. Audiences loved the film and it started a new trend. In more recent years, animated films, called anime, have become popular, as well as scary horror films about ghosts and other monsters.

Big hits: ***Princess Mononoke, The Ring***

India

India makes more films than any other country per year. Many are Bollywood films, which combine love, drama, comedy and action with Indian music and dancing. Indians call them masala films because they have so many ingredients, like the masala spices that Indians use for cooking. Bollywood actors usually speak and sing in Hindi, but they often use English phrases too.

Big hits: ***Sultan, Chennai Express***

The UK

Britain has made some of the world's most popular films, like the James Bond and Harry Potter series. They also make lots of historical films about famous novels, like Sense and Sensibility or Jane Eyre. If you like detective and crime stories, the Sherlock Holmes films are also terrific. The biggest prizes for British cinema are the BAFTA awards, which take place every year in London.

Big hits: ***Casino Royale, Fantastic Beasts and Where to Find Them***

APPS FOR LEARNING ENGLISH

A **WordPowr** is all about learning words – nouns, verbs, everything. There are eight games, which are very enjoyable, but the best part is that you can also play online against other users. At less than the price of a coffee, the app is great value for money. Games last just a few minutes, so it's perfect for a bus ride. Turn down the annoying music, though!

B Although **EnglishScene** is expensive, the app is often given awesome reviews by its users. As soon as you use it, you can understand why. Everything about this app is professional, from the high-quality and interesting video stories, with challenging activities to support students in understanding them, to the simple, but attractive design.

C **Newscast** is a professional-looking app that helps you understand the news in English. You listen to and read stories, do some typical exercises about new words, even a little grammar, and then answer the questions. Each activity takes between five and ten minutes and is surprisingly hard.

D Practise the 3000 most frequent words in English with **PassWords3000**. This app is for low-level students working by themselves and includes a very common range of activity types. It's free, so sometimes you have to watch video advertisements to continue using it. New questions are added every month.

E **LanguageLab** costs nothing, but will be of limited interest to anyone except high-level language learners. The grammar reference for each topic is full of important details but the practice that follows is fairly typical. The app also allows you to compare your progress with friends on social networks.

F The design of **VidEnglish** isn't always clear and it seems to be mainly links to very high-level video clips from documentaries. The clips aren't downloaded with the app, so it's best to use when you have free wi-fi. There is a basic dictionary and the app is completely free, with no advertisements.

G The first thing you notice with **GrammarWise** is its professional-looking design. Everything about this app is easy to use. There are fun, animated grammar presentations and a huge choice of practice activities, with over 50 different grammar topics per level. You can try one topic for free but it costs to get access to the whole app.

H **Themez** is a fresh and unusual app. It uses games to teach grammar and vocabulary through topics like science and history. The app is perfect for when you only have a few minutes to practise, but at the moment you can only play by yourself.

WRITING An informal email (3)

1 **Read this email that Paul receives from his friend Abbie. Why is Abbie looking for new apps and podcasts?**

2 **Read Paul's reply. Does he answer all of Abbie's questions?**

From: Abbie
Subject: Good apps?

Hi Paul,

I'm going on a road trip with my family next week. We're visiting relatives in Scotland for a few days. It's going to be a long journey!

I need some new games for my phone. What's your favourite at the moment?

Why do you like it?

Also, have you heard any good podcasts recently?

Thanks!
Abbie

Great — *Recommend …* — *Explain* — *Tell Abbie …*

Hey Abbie,

Your road trip sounds fun! Yes, it's long, but if you have a few good games and podcasts, I think you'll be fine.

My favourite game on my phone at the moment is Rollercoaster Tycoon. You should try it. You have to design your own theme park, build rollercoasters and encourage as many visitors as possible. I love this game because I can play for hours and never get bored. I would say it's perfect for long journeys.

For podcasts, I'd recommend Reply All. It's a show about anything on the internet, and in my opinion, the stories are really original. Everyone in your family will enjoy it.

Have a great time!

Paul

16 AMAZING SCIENCE

EXPERIMENTS YOU CAN TRY AT HOME

MOVING A CAN WITHOUT TOUCHING IT

YOU WILL NEED:

- ✔ a balloon
- ✔ a tissue
- ✔ an empty drinks can

blow rub tie

★ **a** _____ air into the balloon and **b** _____ the end.

★ **c** _____ the filled balloon on your hair or on a tissue.

★ Put the can on the floor and hold the balloon near it.

★ **Pull the balloon away from the can slowly, and the can will move towards the balloon!**

HOW IT WORKS

The can moves towards the balloon because when you rub the balloon, it gets a negative [1] *electricity / electrical* charge. When you put the balloon near the can, the [2] *electricity / metal* in the can gets a small positive charge. The result is that the static [3] *electricity / air* in the balloon attracts the can.

KEEPING LIQUIDS APART

YOU WILL NEED:

- ✔ two glasses
- ✔ salt
- ✔ food colouring
- ✔ a small piece of thin, hard plastic or cardboard

cover fill stir

★ **d** _____ the glasses with water.

★ Put two large spoons of salt into the first glass and **e** _____ it.

★ Add a few drops of food colouring into the other glass.

★ **f** _____ the glass of coloured water with the cardboard/plastic. Turn it upside down and put it on top of the glass of salt water. Pull the cardboard/plastic out from between the glasses.

★ **The coloured water and the salty water won't mix!**

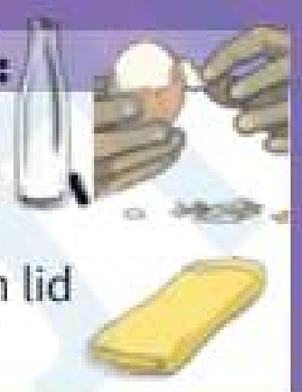

HOW IT WORKS

The coloured water and the salty water stay apart because salt water is heavier than [4] *normal / warm* water. The [5] *heavier / lighter* salt water stays at the bottom of the glass and the [6] *heavier / lighter* coloured water floats at the top.

GETTING AN EGG INTO A BOTTLE

YOU WILL NEED:

- ✔ an egg
- ✔ a towel
- ✔ a glass bottle with a 25–30 mm lid
- ✔ some hot water

boil pour shake wrap

★ **g** _____ the egg for 4 minutes, until the white of the egg is hard but the yolk is soft. Let it cool. Then peel it.

★ **h** _____ the hot water into the bottle. Put on the lid, **i** _____ it in a towel and **j** _____ it well.

★ Take off the lid and pour out the water.

★ Put the egg in the opening of the warm bottle.

★ **After a few minutes the egg is pulled into the bottle.**

HOW IT WORKS

The egg is pulled into the bottle because the hot water in the bottle makes the bottle [7] *smaller / warm*, and the air in the bottle gets warm too. Hot air expands: it gets bigger and takes up more space than [8] *cold / hot* air. Cold air contracts, in other words it gets smaller and takes up less space than warm air. So as the air in the bottle goes back to room temperature, it gets [9] *smaller / warmer*, and so it pulls the egg into the bottle.

Science tries to answer the biggest questions of our time: 'If we explore nearby galaxies, will we find other forms of life?' or 'What will happen to the planet if we don't stop climate change?' The greatest scientific achievements are awarded a Nobel Prize: Alexander Fleming (penicillin), Marie Curie (radioactivity) and Albert Einstein (E=mc2) are all Nobel Prize-winners. Science is serious, but scientists are only human and sometimes they want answers to questions like: 'Why do shower curtains blow towards you when you have a shower?' And so the Ig Nobel Prize was born, with the aim of making people smile first, and then think about science.

3 **Answer the questions.**

1 What's the difference between a Nobel Prize and an Ig Nobel Prize?
2 Why do cows without names produce less milk?
3 Why are some mosquitoes dangerous?
4 Which of Andre Geim's experiments do you think won a Nobel Prize? Why?

4 **Match the highlighted words in the article to the meanings.**

1 stay in the air without support
2 the reason for doing something
3 something for catching animals
4 information that shows something is true
5 allow something to fall
6 something difficult that you succeed in doing

Here's a selection of scientific ideas that have won an Ig Nobel Prize

If a cow has a name, it produces more milk! Farmers have always known this, but now there's proof. Cows without names produce about 13,000 litres a year, but cows with names produce 13,500 litres. This is probably because the cows with names feel more loved by farmers.

When you drop a slice of toast, it falls to the ground with the buttered side down 80% of the time, according to experiments. This is because it usually falls from table height and only has time to turn over once before it reaches the floor.

Mosquitoes love the smell of feet. They'll bite your feet if you take off your shoes! But Limberger cheese smells like feet and is even more attractive to mosquitoes, so they bite you less when there's Limberger nearby. This is a good example of how a silly discovery can be important. 'Cheesy' mosquito traps now help in the fight against malaria, a disease that is carried by mosquitoes. Malaria kills 500,000 people per year.

Only one person has won both an Ig Nobel and a Nobel Prize: Andre Geim made the headlines in 1997 for his 'flying frog' experiment, in which he made a frog float in the air! Then in 2010 he discovered graphene, a form of carbon that is one atom thick. Graphene is the thinnest and strongest substance known to man. There are no prizes for guessing which experiment won an Ig Nobel!

STAYING SAFE ONLINE

LIFE SKILLS

Staying safe online

We use the internet for many things, such as studying, communicating with friends and having fun online. The internet is a normal part of modern life, but we must use it carefully in order to stay safe and prevent problems.

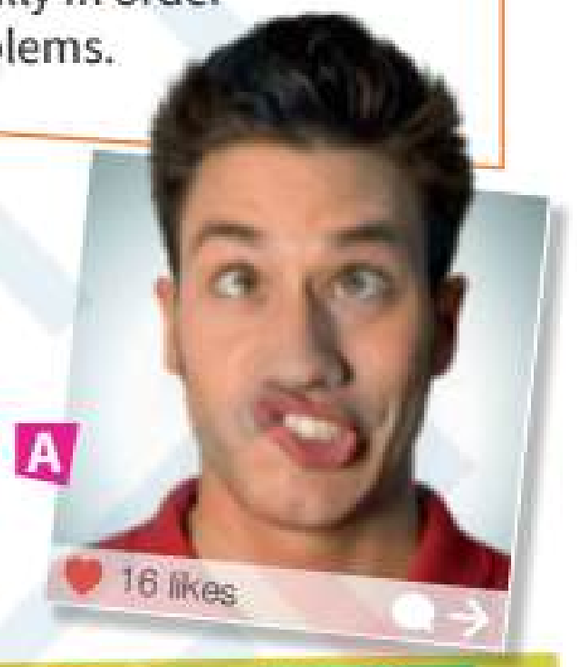

1 **Ask and answer the questions with a partner.**

1 How many hours do you spend on the internet on a typical day?
A less than 1 **B** 1 to 2 **C** 3 to 4 **D** more than 4

2 What electronic device do you use most often for going online?
A smartphone **B** a tablet **C** a laptop **D** other

3 How much do you think you know about internet safety?
A nothing **B** a little **C** quite a lot **D** a lot

2 **Read the text quickly. Match photos A–D to four of the rules. How well do you follow these rules?**

INTERNET SAFETY

The internet is useful and it can also be a lot of fun, as long as people use it responsibly.

80

Here are some basic rules that you should always follow to stay safe on the internet:

1 When you're online, you should protect information like your real name, address, phone number and date of birth. This information is too personal to share with everyone.

2 Don't accept any friend or chat requests from strangers on social media apps or websites. All your online contacts should be people that you already know and trust.

3 Be cautious about websites and apps that tell people your location. You don't want strangers to know where you are going or when you aren't home!

4 If you really want to meet a new online friend, you should always tell your parents first. They should know where you're going, and they may want to accompany you the first time.

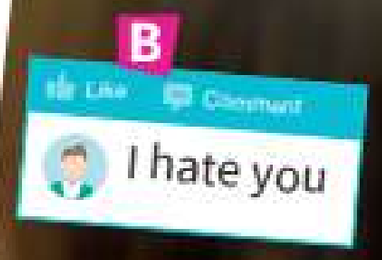

5 Think very carefully before you share any personal photos or videos online. Just pause for a moment and ask yourself, 'Do I really want everyone in the world to see this?'

6 Don't share any photos or videos of your friends and other people unless you have their permission. Be polite and respect other people's privacy online.

7 Keep your passwords secret, so strangers can't access your email or other accounts. And don't choose an obvious password, like 123456. Choose something that people can't guess.

8 If you use social media, you shouldn't write nasty comments about people or the things they post online. Respect their feelings and don't be mean. You wouldn't want someone to say those things about you!

9 If you have any problems with other people online, ask an adult for help. It's better to talk with someone as soon as possible. Don't keep the problem a secret!

READING

WHO ARE THE REAL ARTISTS?

THE SONGWRITERS

When you hear a new song, you probably don't think about who wrote it. And although certain performers like Lady Gaga always write their own songs, hundreds of others perform songs written for them by songwriters. Sia is a famous singer who has toured the world several times and sold millions of her own albums. She's also a successful songwriter, who has written hits for Rihanna and other big stars. Next time you hear a song you love, why not look it up online and see who actually wrote it?

THE GHOSTWRITERS

Kylie Jenner and her sister Kendall were teenagers when they wrote their first science fiction novel, Rebels: City of Indra. But the Jenner sisters grew up as reality show stars, so how did they manage to write a book? The truth is, they didn't write it on their own. They had lots of ideas for the story, but they asked an author called Maya Sloan to write it with them. Sloan is also a ghostwriter who writes celebrities' books for them. Celebrities often use ghostwriters, either because they don't have time, or because they aren't natural writers. Publishers usually order ghostwriters not to talk about the books they've written for celebrities, but the Jenner sisters didn't mind anyone knowing about Maya Sloan.

THE STUNT DOUBLES

Daniel Craig has an action-hero reputation thanks to his performances as James Bond. But does the actor appear in all the dangerous scenes himself? Not always. Instead, a stunt double does lots of them. Ben Cooke was competing in a martial arts tournament when a producer saw him and advised him to become a stunt double. Ben Cooke looks a bit like Daniel Craig, so he became Craig's double. He's won a lot of prizes, including one for an incredible jump in Casino Royale.

THE SECRET PAINTERS

Damien Hirst produces hundreds of paintings every year. How does one man produce [1] _____ many? Like da Vinci and Michelangelo before him, he employs assistants in a studio. He usually tells them [2] _____ do the easy jobs, but they often do whole paintings [3] _____. Rachel Howard was 22 when she started working [4] _____ Hirst. According to Hirst, he only ever made five 'spot' paintings himself and the best spot painting is one painted [5] _____ Rachel! Nowadays, Rachel Howard doesn't work for Hirst. She is a well-known artist [6] _____ work fills galleries all around the world.

1 **Look at the photos. Who or what can you see?**

2 **Read the article quickly. What do Ben Cooke, Maya Sloan, Rachel Howard and Sia have in common?**

2 Maya Sloan is _____ and _____.

3 _____ and _____ acted in *Casino Royale*.
A James Bond **B** Daniel Craig **C** Ben Cooke

4 Painters like _____ and _____ had assistants.
A Rachel Howard **B** Michelangelo **C** Damien Hirst

4 **Now read the article again. Write ONE word for each gap.**

5 **Match the highlighted words in the article to the meanings.**

1 travelled around or playing in concerts
2 people who entertain others by acting, singing, dancing or playing music

JAMALA

Susana Alimivna Dzhamaladinova, better known as Jamala, was born in 1983 in Osh. In the late 1980s, her family moved to the village of Malorichenske, near Alushta. As a child, she was encouraged to listen to a wide range of music. She made her first professional recording at the age of nine. By the time she was fifteen, Jamala was appearing on the big stage. In 2011, Jamala participated in Evrobachennya, the national final for the Eurovision Song Contest and finished in third place. She was disappointed but did not give up. In 2016, Jamala won the Eurovision Song Contest with the song '1944'. The song tells how Crimean Tatars were forced to leave Crimea in 1944. As soon as she won, she became famous worldwide. This was an important moment in her career and also in the music history of Ukraine. She sang the song again in 2023 during the flag parade for the Eurovision Song contest in Liverpool. Nowadays, Jamala continues to record new albums. Her music combines various genres, including pop, jazz, soul and ethnic music. She uses elements of Crimean Tatar music, which definitely adds cultural richness to her songs. She participates in cultural events, festivals and television shows, including 'Voice of the Country' and 'Dancing with the Stars', where she not only demonstrates her own talents, but also inspires and mentors young performers and supports the development of the Ukrainian music scene.

READING

If you could do any job for a day, what would it be? A famous actor? An amazing sports star? A well-known musician? **Takeover Challenge** offers thousands of young people this opportunity. Read more to find out how it works and hear about the experiences of Sophie, Simon and Alexandra.

1 **Read the introduction and look at the photos. What jobs do you think the three young people did? Read the article quickly and check.**

I'M IN CHARGE

Takeover Challenge is an annual event in English schools and about 50,000 young people 'take over' from adults and have a go at their jobs. They're in charge for just one day! Of course, it's difficult to make someone into a film or music celebrity. However, Takeover Challenge has offered young people the chance to be TV presenters, sports coaches, journalists, teachers and even politicians.

The event has two aims. Firstly, it gives young people experience in a wide range of jobs. Secondly, adults can learn from young people's opinions and fresh ideas.

Alexandra Shaw spent the day with a politician. She even went to a meeting with the prime minister! Alexandra thought that if everyone did a politician's job for a day, they'd be amazed. 'It isn't a nine-to-five job,' she said. 'It's 24/7. There isn't even any time for lunch!'

Sophie Cameron, 15, became the headteacher of her school. 'I'd go mad if I were a headteacher permanently,' she said. 'There were so many meetings and some of them went on for ages!' Sophie thinks she learned a lot. 'My favourite part of the day was meeting the school chef and approving the school menus for the week. It was a great opportunity to tell her what we really like eating!'

Simon Evans spent the day at Coventry Football Club. He became coach of the football team. 'Training with professional players was exhausting. They're really fit,' said Simon. 'I would do this job every day if I could. It was an unforgettable experience.'

2 **Read the article again. Answer the questions.**

1 How often does *Takeover Challenge* happen?
2 Who does the day help? How?
3 What did Sophie dislike about her day?
4 What part of being a coach was difficult for Simon?

REVIEW

Crocodile Tears

by Anthony Horowitz

I've just read Crocodile Tears by Anthony Horowitz. It's a great book! The main character is a teenager called Alex Rider. He's a spy for the British government. Alex visits a farm in England that belongs to a criminal. The criminal is called Desmond McCain and he's creating a new type of crop that can kill people. He's planning to cause lots of problems around the world using the crops. Suddenly, McCain catches Alex! I think it's a very exciting story, but I won't write more in case you read the book!

Illusions everywhere

Optical illusions often use light, colour and patterns to trick our brains into seeing something that isn't there. The Ancient Greeks studied them over 2,000 years ago, yet scientists still don't completely understand how they work. One explanation is that our brains are trying to understand so much information that they have to make guesses about some of it. Optical illusions happen when these guesses are wrong.

They might seem like only fun puzzles, but optical illusions have practical uses too. Here are some everyday examples – from advertising and nature to restaurants and on the roads.

In advertising, optical illusions are useful to get people to pay attention. Look at this picture by Akiyoshi Kitaoka, a Japanese professor of Psychology. Kitaoka created it while he was making a New Year's card for his family and friends. The picture was later used in a car advertisement. Can you guess why?

On roads, several countries have used optical illusions to encourage people to drive more safely. For instance, these pedestrian crossings were painted on roads in China. From a distance, they look 3D and the research shows that this causes drivers to go more slowly near the crossings.

In fashion, optical illusions are used to change our appearance. This dress was designed by the famous fashion designer, Alexander McQueen. But it wasn't designed just to look good. The narrow black and white lines create an illusion, and the person appears slimmer than they are. Several celebrities bought one.

In the natural world, some animals need optical illusions to stay alive. Many butterflies, snakes and spiders are a similar colour to the place where they live. They don't want their enemies to see them – and eat them. They can also use their colour to catch other animals themselves. Can you see the animal hiding in this picture? What is it?

Researchers have found that one simple illusion could help us to eat, and also waste, less food. In experiments, the same amount of food was served on two plates: one small and one large. When people were asked to estimate the amount of food on each plate, they usually said the same thing: there was more food on the smaller plate. Restaurants sometimes use this trick too – if we think we are getting more food, then a meal looks better value for money.

3 **Match the highlighted words in the text to the meanings.**

1 trick	a stop something or someone from escaping
2 appears	b seems
3 catch	c make someone more likely to do something
4 encourage	d watch, listen to or think about something carefully
5 pay attention	e make someone believe something that is not true (to something)

FAKE NEWS

GET THE REAL FACTS!

We need to know what's happening around us in the world, and there are many ways to get news. We can read print media, such as newspapers and magazines, or we can use digital media, like TV and the internet. However, we have to think carefully about the information those sources provide and watch out for a problem called 'fake news'.

99

Q1 _____?

When people talk about fake news, they mean false stories that we sometimes find in the media. For example, a website might post an article with false information about a famous celebrity. Then the story might be shared on social media and go viral before people realise that it's false.

Q2 _____?

The phrase 'fake news' isn't new. In fact, it's more than 100 years old. And of course, rumours and false stories have existed since people started using language! However, fake news is becoming more common today because modern technology makes communication faster and easier than before.

Q3 _____?

In some cases, people invent fake stories to have fun and make jokes, but fake news can also be used to get attention. For example, websites might use fake headlines to attract more readers so they can earn more money. In some cases, fake news gets more attention than real news, and that's not funny!

Q4 _____?

Another negative effect of fake news is that people can stop trusting the media because they don't know who is really telling the truth. Fake news stories can also damage the image of a person or company. For instance, a fake story about a restaurant could suggest that its food is unhealthy or dangerous. Similarly, fake news about other cultures makes people feel negatively about them and changes public opinion.

Q5 _____?

To protect yourself against fake news stories, ask yourself four questions: who, what, where and why.

Who wrote the story? Are they experts on the issue? Do you trust them to tell the truth?

What do other people say? Check the facts with other sources and people that you trust.

Where has this story appeared? Did you find it on a website that usually tells the truth?

Why has this story appeared? Is it a joke or is it serious? What is the writer trying to do?

Think carefully about these questions before you share any news on social media. But don't be too negative. Some people tell the truth!

Actress Pippa Cox says she hates her fans.

Reading Matching people to short texts (Unit 15)

UNDERSTANDING THE TASK

There are five short texts describing the preferences of different people.

There are eight short texts describing the events or places that may be of interest to these people based on their preferences.

What do I have to do?

You have to find the text which has all the things that each person wants.

TIPS FOR SUCCESS

- Read the descriptions of the people and underline the important information.
- Make sure the event matches **all** the things that each person wants.

1 Read the text about Iryna. Underline the things she is looking for and the time when she is free.

1 Iryna is seventeen and loves learning about clothes and history. She has a collection of dolls from other places and would love to find out more about the costumes they are dressed in. She is free from 1.30 p.m.

Read the example below and analyse three underlined reasons why the following place may be of interest to Iryna.

A The National Museum of Costume

The museum's collection includes costumes and accessories from the 18th century to the present day. In the permanent exhibition area, you will find displays of items from different historical periods. Our latest temporary exhibition focuses on our collection of dolls dressed in regional costumes. Open Tuesday–Sunday 10 a.m.–1 p.m. and 2–6 p.m.

2 Now, read the texts. Underline the things the people are interested in.

2 Bohdan loves historical cinema and has used his sewing skills to create costumes based on his favourite old film. He dreams of becoming a full-time designer one day.

3 Anna and her family love taking part in celebrations. They are very good at creating historical looks, especially from the first half of the 20th century. They love spending their weekend at big outdoor events.

4 Ivan used to be a ballet dancer until he was injured. Inspired by his grandmother, who could play a variety of traditional instruments, he loves listening to music and watching plays from previous centuries.

5 Diana enjoys listening to experts who talk about fashion. She prefers to find out about clothes worn centuries ago to modern times. She is busy, so it would be better to choose something that doesn't take all day.

Read texts B-H and match the events or places of interest with the people described in texts 2–5.

B Making Historical Costumes
Historical costumier Helena Briggs will share her experience of researching the clothing that people wore in the fifteenth century. Helena's book, Dressing Queens and Kings, was recently published and will be on sale at the event. Lasts 60 minutes.

C 1940's History Weekend
Come and join in the fun! Come to the park dressed in 1940s-style clothes. Displays and entertainment all weekend for the whole family. Entrance is free. Prizes for the best costumes.

D Fashion in the 20th Century
As part of the next festival, on Saturday 30th June, Annabel Wilstone will give a talk on 20th century fashion, followed by an all-day workshop where participants will learn to make suits and other items. Book your place now.

E History Alive Festival
We are pleased to announce that the History Alive Festival will return on Saturday 21st and Sunday 22nd April. See the exhibitions of traditional skills and costumes. Watch music performances and historical scenes being recreated. Get your tickets on the History Alive website.

F The World of Ballet Costumes
Sign up for this online event where Alexandra Loom will share her experience of working with the national ballet company. Listen to her stories about making prize-winning dance costumes for performances.

G Costume Design Show
Our annual fashion show is open to young designers who wish to show their creations to the public and to experts from the film industry. The winner of the competition will be offered work experience in one of the leading costume design companies. Entries must be received by email no later than 1 p.m. May 1st.

H Dress for Your Visit!
Visitors to our museum are encouraged to dress for the occasion! Our guides and other staff will be dressed in 19th century clothes and accessories. Why not dress as your favourite historical figure or in clothes from your favourite historical period?

Shadows of Forgotten Ancestors

Shadows of Forgotten Ancestors is a classic love story. The 1965 film was adapted from the novel (1) *that/who* was written in 1911 by Mykhailo Kotsiubynskyi. The basic plot is the story of Ivan and Marichka (2) *who/that* fall in love, despite belonging to enemy Hutsul families. After Marichka's tragic death, Ivan marries Palagna but he never gets over Marichka, (3) *which/who* is his true love. Director Serhii Parajanov showed the Carpathian Mountains and forests as a land of fantasy, (4) *which/where* people have a special relationship with nature and one another. The filming style, (5) *who/which* is almost like a documentary, has many impressive camera shots, especially when you remember (6) *that/which* it was made in 1964. The way (7) *where/that* the characters feel is shown through the use of colour and the movement of the camera. The soundtrack, (8) *where/which* is based on Ukrainian folk music, is the perfect partner for this story.

UNIT 16 ZERO AND FIRST CONDITIONAL

- Conditional sentences tell us about a possible situation and a result. They use two clauses: the conditional clause and a result clause.
- The conditional clause begins with *if* or ***unless***.
- The conditional clause or the result clause can come first without changing the meaning.

Zero conditional

- The zero conditional uses the present simple in the conditional clause and in the result clause.
- *If* + present tense, + present tense
  If plants ***have*** *enough light, they* ***grow*** *well.*
  If plants ***don't have*** *enough light, they* ***don't grow*** *well.*
  We use a comma when the *if* clause comes first.
- We can also put the *if* clause at the end of a sentence.
  Plants ***grow*** *well* ***if*** *they* ***have*** *enough light.*
- We use the zero conditional to talk about things that are true or always happen.
  If you ***give*** *plants enough food and water, they* ***grow*** *well.*
  If you ***don't give*** *plants enough food and water, they* ***don't grow*** *well.*
- *If* usually means the same as ***when*** in zero conditional sentences.
  Plants ***grow*** *well* ***when*** *you* ***give*** *them enough food and water.*

Practice

1 Complete the zero conditional sentences with the correct form of the verbs.

1 Everyone _____ sleepy if the weather _____ too hot. (feel, be)
2 If my brother _____ any money, he always _____ it on clothes. (earn, spend)
3 Students _____ stressed if their teacher _____ them too many tests. (get, give)
4 If I _____ a film, I _____ it to the end. (not like, not watch)
5 If I _____ well in my school exams, my parents usually _____ me extra pocket money. (do, give)
6 It _____ difficult to remember facts if you _____ studying that subject. (be, not enjoy)

First conditional

- The first conditional uses the present simple in the conditional clause and the ***will*** (future) in the result clause.
- *If* + present tense, + ***will/won't***
  If we ***share*** *a taxi, we'll save money.*
  If we ***take*** *a taxi, we* ***won't*** *get wet.*
  If we ***don't take*** *a taxi, we'll get wet.*
  We use a comma when the *if* clause comes first.
- We can also put the *if* clause at the end of a sentence.
  We'll save money ***if*** *we* ***share*** *a taxi.*
- We use the first conditional to talk about possible or probable future events.
  If this café ***closes****, we'll lose our jobs.*
  We'll lose our jobs ***if*** *this café* ***closes****.*
  We ***won't*** *lose our jobs* ***if*** *this café* ***doesn't close****.*
- *If* does not mean the same as ***when*** in first conditional sentences.
  If this café closes, we'll lose our jobs. (= The speaker believes it is possible that the café will close, but is not sure.)
  When *this café closes, we'll lose our jobs.*
  (= The speaker knows that the café is going to close.)

UNIT 17 REPORTED COMMANDS

- When we want someone to do something or not to do something, we say things like:
  Open the door! / Don't open the door! **(command)**
  Please open the door. / Please don't open the door. **(request)**
  You must open the door! / You mustn't open the door! **(command)**
  You should open the door. / You shouldn't open the door. **(advice/suggestion)**
- When we report commands, requests, suggestions, etc., we use:
  - a reporting verb + object pronoun + ***to*** + infinitive for positive commands and requests.
    Dad said to me, 'Open the door!' → *Dad* ***told me to open*** *the door.*
    Dad said to me, 'Please open the door!' → *Dad* ***asked me to open*** *the door.*

    I said to the boys, 'You shouldn't close the door.' → *I* ***advised them not to close*** *the door.*

Reporting verbs

- In sentences like the ones above, we can use different verbs to tell people what we want them to do, e.g.
  She ***convinced*** *me to stay, but my friend* ***warned*** *me not to listen to her.*
  Examples of reporting verbs are: ***advise, ask, convince, encourage, order, persuade, remind, tell, warn***

UNIT 18 SECOND CONDITIONAL

- Conditional sentences tell us about a possible situation and a result. They use two clauses: the conditional clause and a result clause.
- The conditional clause begins with ***if*** or ***unless***.
- The conditional clause or the result clause can come first without changing the meaning.
- The second conditional uses the past simple in the conditional clause and ***would*** (***'d***) / ***wouldn't*** + infinitive in the result clause.
  If + past tense, + ***would*** + infinitive: ***If*** *I* ***was*** *a journalist,* ***I'd (would) meet*** *lots of famous people.*
  We use a comma when the *if* clause comes first.
- We can also put the ***if*** clause at the end of a sentence.
  I'd ***(would) meet*** *lots of famous people* ***if*** *I* ***was*** *a journalist.*
- We sometimes use ***I were*** instead of ***I was*** in the conditional clause.
  If *I* ***were*** *a journalist, I'd* ***(would) meet*** *lots of famous people.*
- We never use ***when*** instead of ***if*** in second conditional sentences.
- We use the second conditional to talk about an unlikely or impossible situation in the present or future, and its results.
  If *I* ***were*** *a millionaire,* ***I'd buy*** *a desert island.* (= I'm not a millionaire, so I won't buy a desert island.)
  We ***wouldn't send*** *many texts* ***if*** *they* ***cost*** *a lot of money.* (= It's cheap to send texts, so we send lots.)
  If *my brother* ***got up*** *earlier, he* ***wouldn't have*** *to run for the train every morning.* (= My brother doesn't get up early enough, so he has to run for the train every morning.)
  If *I* ***could*** *get a job, I'd* ***(would) have*** *enough money to go out.* (= I can't get a job, so I don't have enough money to go out.)
  The students ***wouldn't play*** *football* ***unless*** *they* ***enjoyed*** *it.* (= They enjoy playing football, that's why they do it.)
- We often use the second conditional to ask questions.
  If *you* ***had*** *the chance,* ***would*** *you* ***visit*** *California?*
  Wouldn't *you* ***be*** *angry* ***if*** *you* ***were*** *me?*
  What ***would*** *you* ***do if*** *someone* ***told*** *you a secret?*
  If *you* ***could do*** *any job at all, what* ***would*** *you* ***choose?***
- We answer the questions with the conditional tense.
  I wouldn't visit *California,* ***I'd go*** *to Florida.*
  Yes, I would. / ***No, I wouldn't.***
  I wouldn't tell *anyone else.*
  I'd be *a racing driver.*
